PROPOSAL TO THE SENATE COMMITTEE ON EDUCATIONAL POLICY

TITLE OF THE PROPOSAL:
Establish a joint degree program between the existing Master of Architecture (M.Arch) and Master of Science in Architectural Studies (MS in AS) degrees offered through the School of Architecture

SPONSOR:
Abbas Aminmansour, School of Architecture (333-2834, AAmn@Illinois.edu)

COLLEGE CONTACT:
Professor Linda Robbennolt, Interim Associate Dean, College of Fine and Applied Arts (333-6061, weasel@illinois.edu)

BRIEF DESCRIPTION:
The School of Architecture proposes to establish a joint degree program between the existing M.Arch. and MS in AS degree programs.

The M.Arch. is a two year professional program for students holding a four-year Bachelor of Science in Architectural Studies (BS in AS) or a similar degree in architecture and recognized by the National Architectural Accrediting Board (NAAB) for direct entry into a two year M.Arch. program. To earn this degree, students must complete a total of 62 hours of graduate credit.

The MS in AS degree is a 1-year program. This degree is not accredited by the National Architecture Accrediting Board (NAAB). The requirements of this degree include 16 credit hours of Architectural electives and 16 credit hours of free electives which are determined in consultation with the students Program Chair.

The total credit hours required for obtaining the two degrees separately is 94 hours. The Graduate College guidelines on joint degree programs allow for sharing of a maximum of 12 hours in a joint degree program. Therefore, the proposed joint degree program requires a total graduate credit hours of 82 credits. Twelve credit hours of Arch-57X (design studios) will be considered as the hours counting toward both degrees.

In order to participate in this joint degree program, students must be initially admitted to either the M.Arch. or the MS in AS degree program and submit the appropriate form to be admitted to the joint degree program. A sample course plan for the joint degree program with the Structures Concentration is included in Appendix I of this proposal.
Proposal to Establish A Joint M.Arch.-MS in AS Degree Program

The proposed M.Arch.-MS in AS joint degree program does not affect or replace any of the existing joint degree programs the School offers in collaboration with other units.

Both the M.Arch. and the MS in AS degrees will continue to be offered independent of this joint degree program. Establishing the proposed joint degree program does not change the requirements or availability of the two degrees in any way.

JUSTIFICATION:
The School of Architecture at the University of Illinois at Urbana-Champaign has a distinguished history for educating some of the most technically competent architects. Our faculty’s teaching and research experience covers a wide range of areas within architecture. One of the School’s long term strengths has been its graduate Structures specialization.

For many years our M.Arch. degree has allowed our graduates to take the necessary exams and become licensed Architects and Structural Engineers (SE) in Illinois. But, our graduates often experience rejection when attempting to register as licensed engineers in other states because they hold an architecture degree and are not credentialed in structures. This has been a major issue for our graduates for many years.

During the fall 2015 semester the School of Architecture proposed to establish a Structures Concentration under our existing MS in AS degree as well as the joint degree program proposed in this document. The proposal to establish a Structures Concentration under the MS in AS degree was approved at all levels and the Provost’s Office recently informed our School that we are free to advertise the Concentration. This proposal is the second portion of the solution to the licensing difficulties our Structures graduates face in other states.

BUDGETARY AND STAFF IMPLICATIONS:
This proposal requests establishing a joint degree program between two existing degrees (M.Arch and MS in AS) with no changes to the course requirements of each degree. All courses required for the joint degree program have been offered for many years. Admission levels for the two degrees will not change due to the joint degree program. Therefore, no budgetary implications are expected as the result of this request.
Proposal to Establish A Joint M.Arch-MS in AS Degree Program

Proposal to Establish A Joint M.Arch.-MS in AS Degree Program

STATEMENT FOR PROGRAMS OF STUDY CATALOG:
The School of Architecture offers a joint M.Arch.-MS in AS degree program for students interested in pursuing both an M.Arch degree as well as one of the concentrations offered through the MS in AS degree program. Completion of in-depth programs (e.g. Structures) will result in recording of the Concentration on the student’s transcript under the MS in AS degree. Per Graduate College guidelines, students in a joint degree program are permitted to count up to 12 hours of course work from one degree as electives toward the second degree. Students interested in participating in the joint M.Arch.-MS in AS degree program must be admitted to and meet all requirements of each degree program and complete a minimum of 82 credit hours of graduate work. Students with no undergraduate degrees in architecture and participating in the four-year M.Arch. degree program may petition to enter the joint M.Arch-MS in AS degree program upon completion of their required undergraduate courses. The M.Arch. degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB) but the MS in AS degree is not accredited.

EFFECTIVE DATE:
It is requested that this proposal be implemented as early as possible upon approval and encompass students already in the M.Arch. degree program at that time.

Proposal to Establish A Joint M.Arch.-MS in AS Degree Program

Architecture

Graduate Degree Programs

The School of Architecture offers two graduate programs, leading to a Masters degree: 1) a two-year professional Master of Architecture degree and 2) a one-year Master of Science in Architectural Studies.

The Master of Architecture (M.Arch) program is for students holding a four-year Bachelor of Science in Architectural Studies (or similar degree in architecture). Completion of the M.Arch degree program requires 62 credit hours. One may be admitted to the Master of Architecture program with Limited Standing if the student holds a bachelor's degree (or higher) in any field other than architecture. M.Arch students with Limited Standing typically take two years to complete undergraduate prerequisite courses to attain full standing in the M. Arch program. The Master of Architecture degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB).

The Master of Science in Architectural Studies (MS in AS) degree program is for students holding a five-year Bachelor of Architecture professional degree or for students interested in pursuing one of the graduate concentrations offered through the School of Architecture. Completion of the MS in AS degree program requires 32 credit hours. The MS in AS degree is not accredited by NAAB.

The School of Architecture, together with the graduate programs of Business Administration, Computer Science, Urban and Regional Planning, and Civil and Environmental Engineering, offers graduate programs leading to the following joint degrees: Master of Architecture and Master of Business Administration, Master of Architecture and Master of Computer Science, Master of Architecture and Master of Urban Planning, and Master of Architecture and Master of Science in Civil and Environmental Engineering (Construction Engineering and Management) (Structures).

The School of Architecture, together with the Department of Landscape Architecture, offers a graduate program leading to the Doctor of Philosophy degree.

The School of Architecture offers a joint M.Arch.-MS in AS degree program for students interested in pursuing both an M.Arch degree as well as one of the concentrations offered through the MS in AS degree program. Completion of in-depth programs (e.g. Structures) will result in recording of the Concentration on the student’s transcript under the MS in AS degree. Per Graduate College policy, students in a joint degree program are permitted to count up to 12 hours of course work from one degree as electives toward the second degree. Students interested in participating in the joint M.Arch-MS in AS degree program must be admitted to and meet all requirements of each degree program and complete a minimum of 82 credit hours of graduate work. Students with no undergraduate degrees in architecture and participating in the four-year M.Arch. degree program may petition to enter the joint M.Arch-MS in AS degree program upon completion of their required undergraduate courses. The M.Arch. degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB) but the MS in AS degree is not accredited.

Proposal Check Sheet

PROPOSAL TITLE (Same as on proposal): Establish a joint degree program between the existing Master of Architecture (M.Arch) and Master of Science in Architectural Studies (MS in AS) degree offered through the School of Architecture.

PROPOSAL TYPE (select all that apply below):

A. ☒ Proposal for a NEW or REVISED degree program. Please consult the Programs of Study Catalog for official titles of existing degree programs.

   1. Degree program level:
      ☒ Graduate          ☐ Professional     ☐ Undergraduate

   2. ☒ Proposal for a new degree (e.g. B.S., M.A. or Ph.D.):

      Degree name, “e.g., Bachelor of Arts or Master of Science”: Joint Degree between the existing Master of Architecture (M.Arch) and Master of Science in Architectural Studies (MS in AS) degree

3. ☐ Proposal for a new or revised major, concentration, or minor:

   ☐ New or ☐ Revised Major in (name of existing or proposed major): _____

   ☐ New or ☐ Revised Concentration in (name of existing or proposed concentration): _____

   ☐ New or ☐ Revised Minor in (name of existing or proposed minor): _____

4. ☐ Proposal to rename an existing major, concentration, or minor:

   ☐ Major          ☐ Concentration     ☐ Minor

   Current name: _____

   Proposed new name: _____

5. ☐ Proposal to terminate an existing degree, major, concentration, or minor:

   ☐ Degree          ☐ Major           ☐ Concentration   ☐ Minor

   Name of existing degree, major, or concentration: _____

6. ☐ Proposal involving a multi-institutional degree:
☐ New          ☐ Revision          ☐ Termination

Name of existing Illinois (UIUC) degree: _____

Name of non-Illinois partnering institution: _____

Location of non-Illinois partnering institution:

☐ State of Illinois    ☐ US State: _____    ☐ Foreign country: _____

B. ☐ Proposal to create a new academic unit (college, school, department, program or other academic unit):

   Name of proposed new unit: _____

C. ☐ Proposal to rename an existing academic unit (college, school, department, or other academic unit):

   Current name of unit: _____

   Proposed new name of unit: _____

D. ☐ Proposal to reorganize existing units (colleges, schools, departments, or program):

   1. ☐ Proposal to change the status of an existing and approved unit (e.g. change from a program to department)

       Name of current unit including status: _____

   2. ☐ Proposal to transfer an existing unit:

       Current unit’s name and home: _____

       Proposed new home for the unit: _____

   3. ☐ Proposal to merge two or more existing units (e.g., merge department A with department B):

       Name and college of unit one to be merged: _____

       Name and college of unit two to be merged: _____

       Proposed name and college of new (merged) unit: _____

   4. ☐ Proposal to terminate an existing unit:

       Current unit’s name and status: _____

E. ☐ Other educational policy proposals (e.g., academic calendar, grading policies, etc.)

       Nature of the proposal: _____

Revised 10/2012
August 5, 2015

Bettina Francis, Chair
Senate Committee on Educational Policy
Office of the Senate
228 English Building, MC-461

Dear Professor Francis:

Enclosed is a copy of a proposal from the College of Fine and Applied Arts and the Graduate College to establish a joint degree program between the existing Master of Architecture and Master of Science in Architectural Studies.

Sincerely,

[Signature]

Kathryn A. Martensen
Assistant Provost

Kathy Martensen
Office of the Provost
207 Swanlund MC-304

Dear Kathy,

Enclosed please find the proposal to establish a joint degree program between the existing Master of Architecture (M.Arch) and Master of Science in Architectural Studies (MS in AS) degrees offered through the School of Architecture.

The proposal was received by the Graduate College on April 1, 2015. It was reviewed and approved by the Program Subcommittee on April 28, 2015. The proposal was forwarded to the Executive Committee. It was reviewed and approved, with one abstention from the proposal’s sponsor, by the Executive Committee on May 12, 2015. The Committee noted that students participating in the joint degree program will meet all requirements of each degree, but will be allowed, as recommended by Graduate College policy, to count 12 hours toward both degrees.

I send the proposal to you now for further review.

Sincerely,

John C. Hart
Associate Dean
Graduate College
