Program Description and Justification

Justification for proposal change:

This program is a remnant of the ME & IE departments when they were one department (they split into the current two departments in 2005). In consultation with the department, there is a lack of interest by both the students and department of continuing this program. Over the last 5 years, there has been no enrollment/graduates in this program.

Is This a Teacher Certification Program?
Yes

Will specialized accreditation be sought for this program?
No

Institutional Context

University of Illinois at Urbana-Champaign

Describe the historical and university context of the program's development. Include a short summary of any existing program(s) upon which this program will be built.

Explain the nature and degree of overlap with existing programs and, if such overlap exists, document consultation with the impacted program’s home department(s).

University of Illinois

State of Illinois

Indicate which of the following goals of the Illinois Board of Higher Education's Strategic Initiative are supported by this program: (choose all that apply)

Educational Attainment—increase educational attainment to match the best-performing states.

Describe how the proposed program supports these goals.

Admission Requirements

Desired Admissions Term
Fall 2018
Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how critical academic functions such as admissions and student advising are managed.

Enrollment

Number of Students in Program (estimate)

Describe how this revision will impact enrollment and degrees awarded.

Delivery Method

This program is available:

Face-to-Face

Budget

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Resource Implications

Facilities
Will the program require new or additional facilities or significant improvements to already existing facilities?
No

Technology
Will the program need additional technology beyond what is currently available for the unit?
No

Non-Technical Resources
Will the program require additional supplies, services or equipment (non-technical)?
No

Resources

Faculty Resources
Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

The department has discussed the impact on the faculty resources and there is no impact on the resources.

Library Resources
Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

There is no impact on the resources.

Instructional Resources
Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?
No

Does this new program/proposed change result in the replacement of another program?
No

Does the program include other courses/subjects impacted by the creation/revision of this program?
No

Financial Resources
How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Will an existing tuition rate be used or continue to be used for this program?

Yes

Program Regulation

Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable.

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Catalog Page Text

Catalog Page Text: Description of program for the catalog page. This is not official content, it is used to help build the catalog pages for the program. Can be edited in the catalog by the college or department.

Statement for Programs of Study Catalog
Requirements
The combined program requires 120 hours of undergraduate credit and 32 hours of graduate credit. This compares to 128 hours of undergraduate credit and 32 hours of graduate credit when the B.S. and M.S. degrees are earned separately. The undergraduate requirements are identical to the four-year B.S. program shown above, except that the following requirements are waived:
one IE technical elective — 3 hours
Free electives — 5 hours
In addition, independent study project courses may not be used as IE or technical electives in the B.S. portion of the combined program.
In the M.S. portion of the program, 32 hours of credit and a thesis are required. There must be at least 24 hours of formal graded course work at the 400 level or greater, eight of which must be at the 500 level, and four of the eight must be in the major field. A Master's thesis, for which at least four and no more than eight hours of IE 599 credit is required. Students must also register for the graduate seminar course (IE 590) every semester following formal admission into the graduate portion of the program.
A student in the combined program must spend at least two academic years in residence, full time in the combined degree program, and at least one of these years must be with graduate status. Students must maintain a graduate GPA of 3.00 in order to remain in the combined program. The B.S. and M.S. degrees are granted simultaneously at the end of the program.

Key: 656
Kathy,

To our knowledge, the departments didn’t change anything about how they were advertising or allowing students to apply to these degree programs. To our knowledge, there wasn’t any activity that would have caused the enrollments to be zero.

Best,

Brooke Newell, MPH
Academic Advisor & Curriculum Coordinator, The Grainger College of Engineering Program Coordinator, Women in Engineering (WIE)

Good morning Brooke,

For the following proposals, can you please share any information you/the departments have as to whether the BS-MS options continued to be “advertised” and if students could apply, and if applications were allowed, were students informed at the point of application by the departmental recipient of that application (or whoever is the recipient) that the combined program was unlikely to be an option moving forward or what they were advised?

Hopefully this makes sense. The gist of the question is if there was any activity by the college/department that would have effectively caused the enrollments to be zero by shutting down admissions before making a proposal to deactivate them, and then also a desire to ensure any interested students were advised appropriately.

- Industrial Engineering, BS-MS

Justification for proposal change:

This program is a remnant of the ME & IE departments when they were one department (they split into the current two departments in 2005). In consultation with the department, there is a lack of interest by both the students and department of continuing this program. Over the last 5 years, there has been no enrollment/graduates in this program.
Mechanical Engineering, BS-MS

Justification for proposal change:

This program is a remnant of the ME & IE departments when they were one department (they split into the current two departments in 2005). In consultation with the department, there is a lack of interest by both the students and department of continuing this program. Over the last 5 years, four students graduated from the program (2015-2017). There are currently no students enrolled in the program.

Thank you, Brooke!

Kathy
