Viewing: 5220 : Interdisciplinary Health Sciences: Health Behavior Change, BS
Changes proposed by: Kristi Carlson

Proposal Type

Proposal Type:
Concentration (ex. Dietetics)

This proposal is for a:
Revision
Proposal Title:

if this proposal is one piece of a multi-element change please include the other impacted programs here. Example: A BS revision with multiple concentration revisions

Proposal to relocate the Interdisciplinary Health Studies major into the Department of Kinesiology and Community Health. This is one part of a 4 part multi-element proposal including the Interdisciplinary Health Sciences, BS (key 439) and the 3 concentrations Health & Aging (key 893), Health Behavior Change (key 894), and Health Diversity (key 895).

Program Description and Justification

Justification for proposal change:

Interdisciplinary Health Sciences (I-health), a program within the College of Applied Health Sciences (AHS), offers a bachelors degree at the University of Illinois. This program, that began 10 years ago, has flourished, with over 350 undergraduate majors. Over most of its history, the I-health program was housed in the College of Applied Health Sciences as a “stand alone” major. More recently, steps are being taken to relocate the I-health program...
within the Department of Kinesiology and Community Health in the College of AHS. The Dean of the College of AHS, Dean Cheryl Hanley-Maxwell, recommended that I-health function within the Department of Kinesiology and Community Health to realize the benefits of functioning within a well-established academic unit. A primary benefit includes the opportunity to engage in the Department of KCH’s educational policy governance. The faculty and staff affiliated with the I-health program have already been functioning as part of the Department of Kinesiology and Community Health, so this change would result in minor, if any changes for faculty, staff, and students in the program.

Is this program interdisciplinary?
No

Corresponding Program(s):

<table>
<thead>
<tr>
<th>Corresponding Program(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interdisciplinary Health Sciences, BS</td>
</tr>
</tbody>
</table>

Academic Level
Undergraduate

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Enrollment

Describe how this revision will impact enrollment and degrees awarded.
This revision will have no impact on enrollment or degrees awarded. As indicated previously, enrollment in the major has increased steadily since its inception ten years ago, and it is expected that this trend will continue.

Delivery Method

Is this program available on campus and online?
No

This program is available:
On Campus

Budget

Are there budgetary implications for this revision?
No
Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?
No

Technology

Will the program need additional technology beyond what is currently available for the unit?
No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?
No

Resources

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

This revision will have no impact on faculty resources. There are currently two faculty members and two advisors who work within the I-health major. These faculty and staff members will continue to work within the major, as it is housed within the Department of Kinesiology and Community Health. If enrollment continues to increase to the point that additional faculty and/or staff are needed, those resources will be sought at that time.

Library Resources

Describe your proposal’s impact on the University Library’s resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

There is no impact on library resources.

Instructional Resources
Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Financial Resources

Will the unit need to seek campus or other external resources?

No

Program Regulation and Assessment

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

“Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.
