**Program Description and Justification**

Justification for proposal change:

BAUSP committee recommendation for workshops:
Disconnect workshops from concentrations and allow all undergraduate students to choose from the same list as part of the undergraduate major core requirements. This includes those workshops already on the books or any special workshops that arise due to a unique circumstance. Although each workshop has a focus area, the workshops must be broad enough to engage students from each concentration.

Under this option, at least 2 workshops must be offered each Fall. This will allow for juniors to study abroad spring semester. Students can take a workshop either their junior or senior year. As long as we have the two-year plan in place, students can look ahead and plan their workshop accordingly. Specialty workshops may be offered in the Fall or Spring.

This change does not edit the total number of degree requirements, but rather shifts one requirement from concentrations (minus 4 credit hours) to major core (plus 4 credit hours).
