

**UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN SENATE**  
COMMITTEE ON EDUCATIONAL POLICY  
(Final; Information)

EP.21.008 Report of Administrative Approvals through September 14, 2020

Senate committees are authorized to act for and in the name of the Senate on minor matters. Below is a listing of the administrative approvals the Senate Committee on Educational Policy approved at its meeting on September 14, 2020. Additional information for each approval is attached.

**A. Undergraduate Programs**

- 1) Environmental Economics and Law Minor, UG** – add ACE 410, Energy Economics (3 hours) to the list of courses from which students are to select one course. There is no change to the total number of hours required for the minor.
- 2) Spatial and Quantitative Methods in Natural Resources and Environment Sciences Minor – UG** -- in the list of Mathematical Modeling courses from which students are to select 3-4 hours, add NRES 401, Watershed Hydrology (3 hours); NRES 402, Ecohydrology and Water Management (3 hours); and NRES 403, Watersheds and Water Quality (3 hours). In the list of Spatial Analysis courses from which students are to select 3-5 hours, add CPSC 444, Introduction to Spatial Analytics (4 hours); GEOG 460, Aerial Photo Analysis (3 hours); and GEOG 476, Applied GIS to Environ Studies (3 hours). There is no change to the total hours required for the minor.
- 3) Natural Resource Conservation Minor – UG** -- in the minor-required courses, add NRES 219, Applied Ecology (3 hours) as an alternative option for NRES 287, Environment and Society (3 hours). In the list of General Electives from which students are required to take 12 hours, at least 6 hours at the 400-level, *remove* NRES 109, Global Environmental Issues (3 hours); NRES 425, Natural Resources Law & Policy (3 hours); and NRES 426, Renewable Energy Policy (3 hours). *Add* to this list NRES 302, Dendrology (4 hours); NRES 362, Ecology of Invasive Species (3 hours); NRES 402, Ecohydrology and Water Management (3 hours); NRES 418, Wetland Ecology & Management (3 hours); NRES 423, Politics of International Conservation and Development (3 hours); NRES 428, Valuing Nature (3 hours); NRES 485, Stream Ecosystem Management (4 hours); and NRES 487, Soil Chemistry (3 hours). There is no change to the total hours required for the minor.
- 4) Urban Studies & Planning: Sustainability, BA** – in the Sustainability concentration's list of courses from which students are required to take 6-8 hours, add UP 246, International Environmental Planning and Governance (3 hours); UP 406, Urban Ecology (4 hours); UP 434, Pedestrian and Bicycle Planning (3 hours); and UP 486, Planning with Climate Change (4 hours). There is no change to the total hours required for the concentration or for the degree.

- 5) **Urban Studies & Planning: Policy & Planning, BA** – in the Policy & Planning concentration’s list of courses from which students are to take 6-8 hours, add UP 431, Travel Behavior Analysis (3 hours). There is no change to the total hours required for the concentration or for the degree.
  
- 6) **Urban Studies & Planning: Global Cities, BA** – in the Global Studies concentration’s list of courses from which students take 6-8 hours, add UP 246, International Environmental Planning and Governance (3 hours) and UP 486, Planning with Climate Change (4 hours). There is no change to the total hours required for the concentration or for the degree.
  
- 7) **Urban Studies & Planning: Social Justice, BA** – in the Social Justice concentration’s list of courses from which students take 6-8 hours, add UP 479, Community Engagement in Planning (3 hours). There is no change to the total hours required for the concentration or for the degree.

# 4061: ENVIRONMENTAL ECONOMICS AND LAW MINOR, UG

Changes proposed by: Brianna Gregg

## Proposal Type

### Proposal Type:

Minor (ex. European Union Studies)

### This proposal is for a:

Revision

Proposal Title:

**If this proposal is one piece of a multi-element change please include the other impacted programs here. *example: A BS revision with multiple concentration revisions***

Administrative approval to review the Environmental Economics and Law minor by adding ACE 410 - Energy Economics

### EP Control Number

EP.21.008

### Official Program Name

Environmental Economics and Law Minor, UG

### Effective Catalog Term

Fall 2020

### Sponsor College

Agr, Consumer, & Env Sciences

**Sponsor Department**

Agricultural and Consumer Economics

**Sponsor Name**

Craig Gundersen

**Sponsor Email**

cggunder@illinois.edu

**College Contact**

Anna Leigh Ball

**College Contact Email**

aball@illinois.edu

**Program Description and Justification****Justification for proposal change:**

This is a new course that will fit nicely within the minor.

**Is this program interdisciplinary?**

No

**Is this minor?**

A Comprehensive study in a single discipline

**Academic Level**

Undergraduate

**Is This a Teacher Certification Program?**

No

**Will specialized accreditation be sought for this program?**

No

**Enrollment****Will the department limit enrollment to the minor?**

No

**Describe how the department will monitor the admission to/enrollment in the minor.**

Not relevant.

**Are there any prerequisites for the proposed minor?**

No

**Describe how this revision will impact enrollment and degrees awarded.**

Not relevant.

## **Delivery Method**

**Is this program available on campus and online?**

No

**This program is available:**

On Campus

**Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?**

No

## **Budget**

**Are there budgetary implications for this revision?**

No

**Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?**

No

## **Resource Implications**

Facilities

**Will the program require new or additional facilities or significant improvements to already existing facilities?**

No

Technology

**Will the program need additional technology beyond what is currently available for the unit?**

No

Non-Technical Resources

**Will the program require additional supplies, services or equipment (non-technical)?**

No

## **Resources**

Library Resources

**Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.**

This should have no impact on the library

Instructional Resources

**Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?**

No

**Does this new program/proposed change result in the replacement of another program?**

No

**Does the program include other courses/subjects impacted by the creation/revision of this program?**

No

## **Financial Resources**

**How does the unit intend to financially support this proposal?**

This course is already being taught and has the capacity to enroll more students.

**Will the unit need to seek campus or other external resources?**

No

## Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

This class is directly relevant to the minor.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

## Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Attach a side-by-side comparison with the existing program AND, if the revision references or adds "chosed-from" lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text

Catalog Page Text: Description of program for the catalog page. This is not official content, it is used to help build the catalog pages for the program. Can be edited in the catalog by the college or department.

This course will be added to "Select one of the following" along with the four courses listed there now.

### Statement for Programs of Study Catalog

Code	Title	Hours
<b>Required for the Minor in Environmental Economics and Law</b>		
ACE 210	Environmental Economics	3
ACE 310	Natural Resource Economics	3
Select one of the following:		3-4
ACE 100	Introduction to Applied Microeconomics	

ECON 102	Microeconomic Principles	
Select two of the following:		6
ACE 306	Food Law	
ACE 403	Agricultural Law	
ACE 406	Environmental Law	
ACE 456	Agr and Food Policies	
BADM 300	The Legal Environment of Bus	
Select one of the following:		3
ACE 410	Energy Economics	
ACE 411	Environment and Development	
CEE 434	Environmental Systems I	
ECON 414	Urban Economics	
ECON 484	Law and Economics	
Total Hours		18-19

A minimum of 18 hours must be completed for this minor. Courses in the minor cannot be completed Credit/No Credit.

Enrollment in the Environmental Economics and Law minor is not available to students enrolled in the Environmental Economics and Policy concentration of the Department of ACE. Enrollment is also not available to those enrolled in the Human Dimensions of the Environment concentration of the major in Natural Resources and Environmental Sciences if enrolled in that concentration was prior to January, 2013.

jrmillr@illinois.edu

**College Contact**

Tony Yannarell, Associate Professor and Chair of the ACES Courses and Curriculum Committee

**College Contact Email**

acyann@illinois.edu

## **Program Description and Justification**

**Justification for proposal change:**

The purpose of this proposal is to make revisions to the Spatial and Quantitative Methods in Natural Resources and Environmental Sciences Minor. The proposed changes are designed to improve student advising and curriculum flexibility.

Specifically, we are requesting to: 1) update the description for clarity, and 2) add six courses.

The minor's description currently lists completion of the Quantitative Reasoning I and Quantitative Reasoning II requirements as prerequisites for the minor. The revision is more specific that one semester of calculus and one semester of statistics - which are both Quantitative Reasoning courses - are required.

The six courses to be added are generally newer courses that will expand the number of course options in the Mathematical Modeling and Spatial Analysis clusters.

**Is this program interdisciplinary?**

No

**Is this minor?**

An interdisciplinary study focusing on a single theme

**Academic Level**

Undergraduate

**Is This a Teacher Certification Program?**

No

**Will specialized accreditation be sought for this program?**

No

## **Enrollment**

**Will the department limit enrollment to the minor?**

No

**Describe how the department will monitor the admission to/enrollment in the minor.**

Students complete the Statement of Intent to Pursue a Campus-Approved Minor form as well as an NRES Department form declaring their intent to pursue the minor. Once the forms are complete, students meet with the NRES Academic Advising Coordinator for review/discussion and to obtain signatures on the forms.

**Are there any prerequisites for the proposed minor?**

Yes

**List the prerequisites including course titles and number of credit hours for each prerequisite course, and whether or not these prerequisites count in the total hours required for the minor.**

Prerequisites:

1. (4-5 hours) One of MATH 220 - Calculus, MATH 221 - Calculus I, or MATH 234 - Calculus for Business
2. (3-4 hours) One of ACE 261 - Applied Statistical Methods, CPSC 241 - Intro to Applied Statistics, ECON 202 - Economic Statistics I, PSYC 235 - Intro to Statistics, SOC 280 - Intro to Social Statistics, or STAT 100 - Statistics

The prerequisites do not count toward the total hours required for the minor.

**Describe how this revision will impact enrollment and degrees awarded.**

Increasing the number of course options has the potential to increase enrollment and degrees awarded.

**What is the typical time to completion of this program?**

4 semesters

**What are the minimum Total Credit Hours required for this program?**

18

## **Delivery Method**

**Is this program available on campus and online?**

No

**This program is available:**

On Campus

**Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?**

No

## **Budget**

**Are there budgetary implications for this revision?**

No

**Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?**

No

## **Resource Implications**

Facilities

**Will the program require new or additional facilities or significant improvements to already existing facilities?**

No

Technology

**Will the program need additional technology beyond what is currently available for the unit?**

No

Non-Technical Resources

**Will the program require additional supplies, services or equipment (non-technical)?**

No

## **Resources**

Library Resources

**Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.**

These changes only impact courses currently offered, so we do not anticipate any impact on library resources.

Instructional Resources

**Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?**

No

**Does this new program/proposed change result in the replacement of another program?**

No

**Does the program include other courses/subjects impacted by the creation/revision of this program?**

No

## **Financial Resources**

**How does the unit intend to financially support this proposal?**

These changes only impact courses currently offered, so we do not anticipate any financial costs to this revision.

**Will the unit need to seek campus or other external resources?**

No

## Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

All subject areas/courses in the minor have been selected because they specifically address the learning objectives of the minor. We therefore intend to use student performance in these courses as benchmarks to ensure that students have achieved these educational goals. All courses in Natural Resources and Environmental Sciences regularly undergo peer-review assessments, and we will continue this practice for all courses in the minor.

**Is the career/profession for graduates of this program regulated by the State of Illinois?**

No

## Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

**An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?**

Yes

**All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.**

### Revised programs

NRES\_Minor\_in\_Spatial\_Quantitative\_Methods\_NRES\_curriculum\_revision\_proposal\_2020.docx

**Attach a side-by-side comparison with the existing program AND, if the revision references or adds "chose-from" lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.**

Catalog Page Text

**Catalog Page Text: Description of program for the catalog page. This is not official content, it is used to help build the catalog pages for the program. Can be edited in the catalog by the college or department.**

The Spatial and Quantitative Methods in Natural Resources and Environmental Sciences minor is ideal for students in NRES and allied fields seeking preparation for careers requiring skills in geographic information systems, statistics, research design, and/or mathematical modeling. This minor is open to students in all majors and is especially relevant for those pursuing a major related to natural resource and environmental issues who want to distinguish themselves with more advanced analytical skills. In order to be eligible to declare this minor, a student must have successfully completed:

1. MATH 220, 221 or 234
2. ACE 261, CPSC 241, ECON 202, PSYC 235, SOC 280 or STAT 100

The minor requires the completion of an additional 18 hours of coursework selected from the following list. Students must earn credit for at least three hours in each of the three categories. At least six hours of 400-level courses must be distinct from any credit earned for the student's major, concentration, and any other minor.

### This proposal is for a:

Revision

Proposal Title:

**If this proposal is one piece of a multi-element change please include the other impacted programs here. *example: A BS revision with multiple concentration revisions***

Administrative approval to revise the Natural Resource Conservation Minor.

This proposal is not part of a multi-element change.

**EP Control Number**

EP:21.008

**Official Program Name**

Natural Resource Conservation Minor - UG

**Effective Catalog Term**

Spring 2021

**Sponsor College**

Agr, Consumer, & Env Sciences

**Sponsor Department**

Natural Res & Env Science

**Sponsor Name**

Jim Miller, Professor and Chair of the NRES Courses and Curriculum Committee

**Sponsor Email**

jrmillr@illinois.edu

**College Contact**

Tony Yannarell, Associate Professor and Chair of the ACES Courses and Curriculum Committee

**College Contact Email**

acyann@illinois.edu

**Program Description and Justification**

**Justification for proposal change:**

The purpose of this proposal is to make revisions to the Natural Resource Conservation Minor. The proposed changes are designed to improve student advising and curriculum flexibility.

Specifically, we are requesting to: 1) add one course (NRES 219) to the Required Courses as an alternative option with NRES 287, 2) remove three courses from the General Electives, and 3) add 10 new courses to the General Electives.

Having one of NRES 287 or NRES 219 fulfill a Required Course will provide topical flexibility and ensure that students have regular access to a required course. When students choose one of the two courses to take as a Required Course, they will have the option to take the other course as a General Elective.

The three courses to be removed have not been offered for at least five years and there are no current plans to offer the courses again soon.

The 10 courses to be added are generally newer courses that will expand the number of course options in the General Electives cluster.

**Is this program interdisciplinary?**

No

**Is this minor?**

A Comprehensive study in a single discipline

**Academic Level**

Undergraduate

**Is This a Teacher Certification Program?**

No

**Will specialized accreditation be sought for this program?**

No

## **Enrollment**

**Will the department limit enrollment to the minor?**

No

**Describe how the department will monitor the admission to/enrollment in the minor.**

Students complete the Statement of Intent to Pursue a Campus-Approved Minor form as well as an NRES Department form declaring their intent to pursue the minor. Once the forms are complete, students meet with the NRES Academic Advising Coordinator for review/discussion and to obtain signatures on the forms.

**Are there any prerequisites for the proposed minor?**

No

**Describe how this revision will impact enrollment and degrees awarded.**

Increasing the number of course options has the potential to increase enrollment and degrees awarded.

**What is the typical time to completion of this program?**

4 semesters

What are the minimum Total Credit Hours required for this program?

18

## Delivery Method

Is this program available on campus and online?

No

This program is available:

On Campus

Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?

No

## Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

## Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

**Will the program require additional supplies, services or equipment (non-technical)?**

No

## **Resources**

Library Resources

**Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.**

These changes only impact courses currently offered, so we do not anticipate any impact on library resources.

Instructional Resources

**Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?**

No

**Does this new program/proposed change result in the replacement of another program?**

No

**Does the program include other courses/subjects impacted by the creation/revision of this program?**

No

## **Financial Resources**

**How does the unit intend to financially support this proposal?**

These changes only impact courses currently offered, so we do not anticipate any financial costs to this revision.

**Will the unit need to seek campus or other external resources?**

No

## **Program Regulation and Assessment**

**Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).**

All subject areas/courses in the minor have been selected because they specifically address the learning objectives of the minor. We therefore intend to use student performance in these courses as benchmarks to ensure that students have achieved these educational goals. All courses in Natural Resources and Environmental Sciences regularly undergo peer-review assessments, and we will continue this practice for all courses in the minor.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

## Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

### Revised programs

NRES\_Minor\_in\_Natural\_Resource\_Conservation\_curriculum\_revision\_proposal\_2020.docx

Attach a side-by-side comparison with the existing program AND, if the revision references or adds "chose-from" lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text

Catalog Page Text: Description of program for the catalog page. This is not official content, it is used to help build the catalog pages for the program. Can be edited in the catalog by the college or department.

No changes

## Viewing: 5564 : Urban Studies & Planning: Sustainability, BA

Changes proposed by: Nicole Turner

## Proposal Type

### Proposal Type:

Concentration (ex. Dietetics)

**This proposal is for a:**

Revision

Proposal Title:

**If this proposal is one piece of a multi-element change please include the other impacted programs here. *example: A BS revision with multiple concentration revisions***

Administrative approval to revise by adding four additional elective courses are added as options to the Sustainability concentration of the BA in Urban Studies & Planning. Students must still pick two courses from an elective list, which is now expanded from 7 to 11 total options. No change in requirements or total credit hours for the concentration.

All 4 concentrations for the BA (keys 687, 688, 689, & 690) are submitted with increases in these elective options.

## Program Description and Justification

### Justification for proposal change:

After a UP faculty review of newly developed courses and courses to be offered in the near future, it was determined that there were additional courses relevant to the concentration to include.

Four courses were elected to be added to the Sustainability concentration: UP 246, UP 486, UP 406, and UP 434. UP 246 is a new course for fall 2020 and will be offered every fall term. UP 486 is a new course as of May 2020 and will be offered in fall terms as well, starting with fall 2021. UP 406 was offered in spring 2019 and fall 2020 and there are ongoing plans to offer the course due to instructor expertise in this area. UP 434 was first offered in fall 2019, is on the fall 2020 schedule, and will be offered in fall terms thereafter.

### Proposal Type:

Concentration (ex. Dietetics)

**This proposal is for a:**

Revision

Proposal Title:

**If this proposal is one piece of a multi-element change please include the other impacted programs here. *example: A BS revision with multiple concentration revisions***

Administrative approval to revise by adding one additional elective course is added as an option to the Policy & Planning concentration of the BA in Urban Studies & Planning. Students must still pick two courses from an elective list, which is now expanded from 9 to 10 total options. No change in requirements or total credit hours for the concentration.

All 4 concentrations for the BA (keys 687, 688, 689, & 690) are submitted with increases in these elective options.

## Program Description and Justification

### Justification for proposal change:

After a UP faculty review of newly developed courses and courses to be offered in the near future, it was determined that there was an additional course relevant to the concentration to include.

One course was elected to be added to the Policy & Planning concentration: UP 431, which was first offered spring 2020 and will be offered annually in the spring term.

### Is this program interdisciplinary?

### Corresponding Program(s):

Corresponding Program(s)
Urban Studies Planning, BA

### Academic Level

Undergraduate

### Is This a Teacher Certification Program?

No

### Will specialized accreditation be sought for this program?

No

## Enrollment

### Describe how this revision will impact enrollment and degrees awarded.

No impact.

## Delivery Method

### Is this program available on campus and online?

No

### This program is available:

On Campus

## Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

## Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

## Resources

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support all concentrations of the BA in Urban Studies & Planning.

## Instructional Resources

**Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?**

No

**Does this new program/proposed change result in the replacement of another program?**

No

**Does the program include other courses/subjects impacted by the creation/revision of this program?**

No

## Financial Resources

**How does the unit intend to financially support this proposal?**

n/a

**Will the unit need to seek campus or other external resources?**

No

## Program Regulation and Assessment

**Is the career/profession for graduates of this program regulated by the State of Illinois?**

No

## Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

**All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.**

Mary,

The CIM program workflows have been initiated for the 4 UP concentrations below, with the removal of UP 474 in the Social Justice concentration as we discussed.

Best,

**Nicole Turner, Ph.D.**  
*Assistant Dean for Academic Programs and International Education*

College of Fine + Applied Arts  
University of Illinois at Urbana-Champaign
