Proposal Type

Proposal Type: Major (ex. Special Education)

This proposal is for a: Revision
If this proposal is one piece of a multi-element change please include the other impacted programs here. Example: A BS revision with multiple concentration revisions

PhD revision with multiple minor revisions

The other programs that are tied to this revision include:
IE, MS -- key 337
SE, MS -- key 338
SE, PHD -- key 335

Program Description and Justification

Justification for proposal change:

The Department of Industrial and Enterprise Systems Engineering would like to align both the Industrial Engineering and Systems & Entrepreneurial Engineering curriculum requirements to create consistency among both programs. This has no implication for students from a financial aspect and should make the requirements much more clear to avoid confusion that we currently experience.

In particular, we are proposing the following:
PhD With Approved Masters:
*Structuring the electives -- STEM courses and 400/500-level IE courses
*Defining the STEM courses that will count toward the degree
*Increase GPA requirement to 3.25 to match PhDSEE

PhD With Approved Bachelors:
*Structuring the electives -- STEM courses, 400/500-level IE courses, and open electives
*Defining the STEM courses that will count toward the degree
*Increasing number of 500-level courses to match PhDSEE
*Increase GPA requirement to 3.25 to match PhDSEE

Corresponding Degree
PhD Doctor of Philosophy

Is this program interdisciplinary?
No

Academic Level
Graduate

Will you admit to the concentration directly?
No

Is a concentration required for graduation?
No

CIP Code
143501 - Industrial Engineering.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No
Admission Requirements

Is this revision a change to the admission status of the program?
No

Enrollment

Describe how this revision will impact enrollment and degrees awarded.
No impact in enrollment or degrees awarded is expected

Estimated Annual Number of Degrees Awarded

What is the matriculation term for this program?
Fall

What is the typical time to completion of this program?
5 years

What are the minimum Total Credit Hours required for this program?
64

Delivery Method

Is this program available on campus and online?
No

This program is available:
On Campus

Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No
Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?
No

Technology

Will the program need additional technology beyond what is currently available for the unit?
No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?
No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Faculty Resources

Library Resources

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?
No

Does the program include other courses/subjects impacted by the creation/revision of this program?
No
Financial Resources

How does the unit intend to financially support this proposal?
No financial impact is expected

Will the unit need to seek campus or other external resources?
No

Are you seeking a change in the tuition rate or differential for this program?
Yes

Is this program requesting self-supporting status?
No

Program Regulation and Assessment

Is the career/profession for graduates of this program regulated by the State of Illinois?
No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs
PhDIE ProposedChanges 101220.pdf

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.
### Entering with approved M.S./M.A. degree

</tbody>
</table>
4 hours of the elective courses must be from a College of Engineering department, including ABE and CHBE.

A maximum of 4 CR-graded credit hours in non-IE courses may be applied toward the degree.

Minimum GPA: 3.25

Minimum 500-level credit hours applied toward the degree: 28

Independent study/project design do not count toward 500-level requirement.

A maximum of 8 hours of IE 597 (or other approved independent study/project design) may be applied toward the degree.

Ph.D. exam and dissertation requirements:

Qualifying exam: Qualifying examinations should be taken no later than the fifth semester for those entering with approved B.S. or B.A. degree.
