Senate committees are authorized to act for and in the name of the Senate on minor matters. Below is a listing of the administrative approvals the Senate Committee on Educational Policy approved at its meeting on August 29, 2022. For each program listing, there is no change to the total hours required. Additional information for each approval is attached.

A. Graduate Programs

1) Revise the Joint Program in the Master of Urban Planning in Urban Planning and Bachelor of Arts in Urban Studies and Planning in the College of Fine and Applied Arts and the Graduate College (key 943) – adds a required course to the major core for BAUSP majors, removes the capstone prep/experience/seminar and adds 2 courses, and updates GGIS course rubric from GEOG.

2) Revise the Joint Program in the Master of Public Health in Epidemiology and Bachelor of Science in Kinesiology in the College of Applied Health Sciences and the Graduate College (key 1051) – revises general education wording for clarity and revises moves 4 hours of electives into a concentration specific course.

3) Revise the Joint Program in the Master of Animal Sciences in Animal Sciences and Bachelor of Science in Animal Sciences in the College of Agricultural, Consumer and Environmental Sciences and the Graduate College (key 881) – clarifies course requirement and replaces temporary course with permanent course number.

4) Revise the Master of Animal Science in Animal Sciences in the College of Agricultural, Consumer and Environmental Sciences and the Graduate College (key 520) – clarifies course requirement and replaces temporary course with permanent course number.

5) Revise the concentration in Medieval Studies in the College of Liberal Arts and Sciences and the Graduate College (key 926) – adds a department to the list of departments whose graduate students can declare the concentration.

6) Revise the concentration in Data Science and Engineering in the Grainger College of Engineering and the Graduate College (key 1045) – removes duplicative course and adds a course to a choose from list of courses.

7) Revise the concentration in Vocal Coaching and Accompanying in the Master of Music in Music in the College of Fine and Applied Arts and the Graduate College (key 822) – replaces renumbered course.

B. Undergraduate Programs

1) Revise the Bachelor of Arts in Dance and Bachelor of Science in Kinesiology Dual Degree in the College of Fine and Applied Arts and College of Applied Health Sciences (key 1074) – revises BA Dance course listings to incorporate umbrella courses to allow for varied offerings of dance types.

2) Revise the Undergraduate Minor in Social Work in the School of Social Work (key 295) – revises the list of elective courses for SSW minors.
3) Revise the Bachelor of Science in Human Development and Family Studies in the College of Agricultural, Consumer and Environmental Sciences (key 84) – revises Individualized Plan course options, removes ACES 101 as a required course, and revises the general education area for clarity.

4) Revise the Bachelor of Fine Arts in Dance in the College of Fine and Applied Arts (key 133) – adds one course to the Creative Practice elective list.

5) Revise the Bachelor of Science in Architectural Studies in the College of Fine and Applied Arts (key 130) – updates GGIS course rubric from GEOG and removes footnotes.

6) Revise the concentration in Geographic Information Science in the Bachelor of Science in Liberal Arts and Sciences in Geography and Geographic Information Science in the College of Liberal Arts and Sciences (key 846) – removes discontinued course and adds new course that has replaced it.

7) Revise the Undergraduate Minor in Business for Non-Business Majors in the Gies College of Business (key 462) – adds course elective options.

8) Revise the Undergraduate Minor in Classical Languages in the College of Liberal Arts and Sciences (key 937) – revises the list of elective courses.

9) Revise the Undergraduate Minor in Critical Film Production in the College of Media (key 931) – revises the list of elective courses.

10) Revise the Undergraduate Minor in Game Studies and Design in the School of Information Science (key 1069) – replaces temporary course with permanent course number.

C. Centers and Institutes

1) Institute for Universal Biology – administratively housed in The Grainger College of Engineering, the Institute for Universal Biology (IUB) held temporary institute status which expired with IBHE on June 17, 2018. IUB has not been active in recent years, the affiliated staff member has retired, and the last affiliated faculty member left the university last year, and there are no other faculty or staff, nor any dollars or students associated with IUB. The IBHE program inventory needs to be updated to remove it.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog  Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Joint Program in the Master of Urban Planning in Urban Planning and Bachelor of Arts in Urban Studies and Planning in the College of Fine and Applied Arts and the Graduate College

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Related to BAUSP program revision (Key 148)

Program Justification
Why are these changes necessary?

1. Addition of UP 211 (3 hours) to curriculum
   The Planning Accreditation Board site visit team determined that Planning Law content is only touched on in a 100-level core course and in four other elective courses. The primary course with a thorough coverage of planning law, UP211, is only an elective. The Program Director estimates that only about 40% of the undergraduates take this course, which means that over half of the bachelor’s students receive very minimal exposure to planning law. Therefore, the addition of UP 211 to the major core as a requirement for all BAUSP majors is proposed. This adds another course to the BAUSP core, affecting the flexibility of the program for students. UP211 is also currently the gateway course for the policy and planning concentration. This was approved by DURP faculty. Current faculty resources can support this new addition to accommodate the additional 60% of students who will now enroll in this course. The course is currently taught once per year (spring term).

2. Eliminate capstone prep/capstone experience/capstone seminar (6 hours) and add UP 347 Junior Planning Workshop (4 hours) and UP 401 Undergrad Capstone Seminar (1 hour) = overall reduction of 1 hour to major requirements
   Revise the existing BAUSP capstone and workshop requirements with a new approach that includes a loose sequence of Junior/Senior Workshops in the sixth and seventh semesters respectively, and a final semester professional preparation seminar that allows students to showcase their achievements.

3. Changes #1 and 2 shift hours for the UP course category from 31-33 to 33-35 (+2 hours for major requirements, but this does not add to total hours required for degree)

4. Update GEOG courses to new GGIS rubric

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

In AY 2016-2017, the Department approved a new protocol for student learning outcomes assessment for all its degree programs (BAUSP, MUP, MSSUM, and Ph.D.). For the BAUSP and MUP programs, we initiated an annual cycle in which a two-person team of Department faculty evaluate the outcomes of one core course per year from each program. Faculty instructors for the courses under review provide access to course materials and completed student work from the semester in question. Other teams review capstone projects of the previous year's MUP students and one of the concentration-specific BAUSP student workshops. For both the course-based and the capstone-based reviews, the assessment teams selected five students at random and assessed their work, basing their assessments upon the degree to which students have met, partially met, or not met the criteria identified for that course on the Curriculum Map.

To be consistent with our accreditation requirements, we are using the Knowledge, Skills, and Values identified by the Planning Accreditation Board as desired outcomes for planning education:

1. General planning knowledge
   a. Purpose and Meaning of Planning
   b. Planning Theory
   c. Planning Law
   d. Human Settlements and History of Planning
   e. The Future
   f. Global Dimensions of Planning

2. Planning skills
   a. Research Written, Oral and Graphic Communication
   b. Quantitative and Qualitative Methods
   c. Plan Creation and Implementation
   d. Planning Process Methods
   e. Leadership

3. Values and ethics
   a. Professional Ethics and Responsibility
   b. Governance and Participation
   c. Sustainability and Environmental Quality
   d. Growth and Development
   e. Social Justice

Is the career/profession for graduates of this program regulated by the State of Illinois?

No
All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The 4+1 program allows for students completing the BAUSP degree in the Department to complete the MUP on an accelerated timeline. The 4+1 program is highly selective. Each year, a limited number of outstanding BAUSP juniors are identified and invited to apply to the program. While students can notify the BAUSP Director of their interest in the 4+1 program, the Department will independently review student academic records to identify eligible candidates for the program.

In the fall and spring semesters of their senior year, the BAUSP Director will collect feedback on 4+1 student performance from their course instructors, and will make a determination regarding adequate progress in the program.

At the end of the senior year, the 4+1 student is qualified to graduate with the BAUSP degree, having met all the requirements of that program. In the senior year, 4+1 students wishing to complete the MUP degree will formally apply to the MUP program, submitting a full application package including recommendations, GRE scores, and transcripts.

Statement for Programs of Study Catalog

BAUSP

General education: Students must complete the Campus General Education requirements including the campus general education language requirement.

Minimum hours required for graduation: 120 hours.

Capstone Preparation: During the 3rd year, students enroll in UP 301, Capstone Preparation. Students meet individually with their capstone advisor to develop a plan to meet the capstone requirement. To pass this course students must turn in a proposal at the end of the semester.

Capstone Experience: Students engage in a semester or summer-long applied activity outside of the classroom. The Capstone Experience is intended to engage the students in the real world and prepare them for the job market. Students typically complete this requirement during their junior year, but have the option to complete it during the summer between their 3rd and 4th year. Examples include a paid or unpaid internship, volunteer work, consulting project with a client, summer research and more. Students enroll in UP 390, Planning Internship, and/or UP 397, Undergraduate Project, to receive credit.

Capstone Seminar: During the 4th year, students enroll in UP 401 for 2 semesters. Students will participate in monthly activities to discuss and reflect on the Capstone Experience. In addition, students will present a poster summarizing their capstone experience in a public setting; for example at a public engagement conference, public meeting or community meeting, McNair Scholars conference, James Scholars event, Illinois American Planning Association meeting, undergraduate research symposium, or other venue. The seminar sessions also include career development such as resume writing, interviewing and networking with professionals through the Wetmore Lecture Series.

Academic Level
- Undergraduate
- Graduate
What is the typical time to completion of this program?

What are the minimum Total Credit Hours required for this program?

What is the required GPA?

Is This a Teacher Certification Program?
    No

Will specialized accreditation be sought for this program?
    No

Delivery Method

This program is available:
    On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective    Fall 2020
Admissions Term

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how critical academic functions such as admissions and student advising are managed.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

    No impact.

Estimated Annual Number of Degrees Awarded

| Year One Estimate | 5th Year Estimate (or when fully implemented) |

Budget

Are there budgetary

    No
implications for this revision?

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
   No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?
   No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g., Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?
   No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?
   No

Technology

Will the program need additional technology beyond what is currently available for the unit?
   No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?
   No

Resources
For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

Impact discussed more specifically in key 148. This proposal does not have an impact in these areas.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this 4+1 BAUSP/MUP program revision.

Once admitted to the MUP program, a 4+1 student must take 32 hours of graduate courses, 20 of which must be UP courses. These courses include the capstone seminar and master's project or thesis. The 32 hours of graduate courses is a minimum requirement for the MUP degree; it cannot be reduced by UP 590 internship or course waivers.

Other MUP Requirements

Up to two MUP core courses may be included among the 32 hours. If more core courses are needed, then correspondingly more than 32 hours will be required for the MUP degree.

Minimum Hours Required Within the Unit: 20

Minimum 500-level Hours Required Overall: 16 (12 in UP)

Minimum GPA: 3.0

Other MUP Requirements

Up to two MUP core courses may be included among the 32 hours. If more core courses are needed, then correspondingly more than 32 hours will be required for the MUP degree.

Minimum Hours Required Within the Unit: 20

Minimum 500-level Hours Required Overall: 16 (12 in UP)

Minimum GPA: 3.0

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog  Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Joint Program in the Master of Public Health in Epidemiology and Bachelor of Science in Kinesiology in the College of Applied Health Sciences and the Graduate College

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203). </i>

This is related to the JP: Community Health, BS & Epidemiology, MPH key= 1053
JP: Interdisciplinary Health Sciences, BS & Epidemiology, MPH Key: 1052 proposals

Program Justification

Why are these changes necessary?

The current program of study is not accurate.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

There is no required licensure or certification in this field, however the MPH Program is nationally accredited by CEPH, the Council for Education on Public Health. (The addition of the MPH in Epidemiology was approved and accredited by CEPH in October 2019.) Extensive reporting, assessment, evaluation, and tracking occurs as part of being a nationally accredited program. Very detailed curriculum competency alignment, tracking, and reporting happen throughout the year to ensure the program is meeting the 30+ individual competencies CEPH requires. In addition, an active External Advisory Committee and student governance advisory committee are both required, and are active entities supporting the MPH program.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

**Program of Study**

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  Program of Study - KIN-MPH EPI.xlsx

Attach a side-by-side comparison with the existing program
AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

**Catalog Page Text - Overview Tab**

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

**Statement for Programs of Study Catalog**

**Requirements Including General Education**

The Kinesiology Program requires that General Education requirements must be selected from the Campus General Education course list. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education requirements provided they are on the appropriate General Education list. Specifically required General Education courses are listed below.
Students pursuing teacher licensure must complete PSYC 100%7C or PSYC 103%7C in addition to KIN 259.

Courses in cultural studies may be completed through other categories where appropriate.

Fulfills University General Education Requirements

**Program Features**

**Academic Level**
- Undergraduate
- Graduate

What is the typical time to completion of this program?

*5.5 years*

What are the minimum Total Credit Hours required for this program?

*164*

What is the required GPA?

*3.0*

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

Yes

Describe the plans for seeking specialized accreditation:

The MPH Program is already nationally accredited by CEPH, the Council for Education on Public Health. This accreditation includes the MPH (in Public Health) and the MPH in Epidemiology. The addition of the MPH in Epidemiology was approved and accredited by CEPH in October 2019. Extensive reporting, assessment, evaluation, and tracking occurs as part of being a nationally accredited program. Very detailed curriculum competency alignment, tracking, and reporting happen throughout the year to ensure the program is meeting the 30+ individual competencies CEPH requires. In addition, an active External Advisory Committee and student governance advisory committee are both required, and are active entities supporting the MPH program.

**Delivery Method**

This program is available:

- On Campus - Students are required to be on campus, they may take some online courses.

**Admission Requirements**

<table>
<thead>
<tr>
<th>Desired Effective Admissions Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 2022 2021</td>
</tr>
</tbody>
</table>
To be eligible, students have completed their junior year of the BS in Kinesiology. Students must have 3.0 or higher overall GPA to receive admission. Students can apply to the program at two different times- the summer before they begin their senior year or at the end of the fall term of their senior year. Application dates vary slightly year to year tied to semester start dates. The upcoming cycle of applications will be due August 1st and December 15th.

Applications for admission will be reviewed by program staff and an admissions committee, comprised of faculty and staff from the department who teach and advise MPH students.

Applications are reviewed holistically, looking at GPA and performance in courses, experiential opportunities (work, volunteer experiences, internships), personal statement, and recommendation letters.

Upon acceptance, students will be admitted to the joint program and meet with their MPH advisor to determine which courses will be taken in their senior year that will apply to both degrees. (During their undergraduate degree, the joint degree students also continue to meet with their undergraduate advisor.)

Students admitted to the graduate program must maintain an overall 3.0 GPA to remain in good standing.
Describe how critical academic functions such as admissions and student advising are managed.

The MPH Program has a current process for managing admissions and student advising, and that will expand to include the BS-MPH in Epidemiology.

Admissions: An MPH admissions committee, comprised of the MPH Director, MPH Assistant Director, and faculty and program staff members who join the committee meet approximately three times per year for functions such as determining the recruiting and marketing plan for the year, establishing goals for recruiting and matriculation, and refining and implementing the applicant review plan for each year. The committee members have a lead role in reviewing applications and making admissions determinations, and other faculty who teach in and advise students in the MPH Program also participate in reviewing applications throughout the year. Reports about the admissions process and meeting minutes from committee meetings are submitted to the accrediting body for review periodically.

While the MPH program uses SOPHAS (a national centralized recruiting and application system for the public health field) for most applications, applicants to the BS-MPH program apply directly to the Graduate College on Slate since they are all internal applicants and the marketing and recruiting aspects of SOPHAS are not needed for them.

The MPH is also supported in admissions work by the Graduate Office Administrator for the Department of Kinesiology and Community Health. This team member is the primary interface between the Department and the Graduate College and provides valuable assistance.

Student Advising: Each MPH student receives three types of advising support.
1. Each student receives academic advising from the MPH Assistant Director. This includes assistance with getting started in the program, course registration, and checking if graduation requirements are being met.

2. Students are also assigned to a faculty mentor based on their shared interests. Students meet with the faculty adviser at least once per year to help build connections with faculty, learn about opportunities in research and community service, and help develop connections and networks for finding internship and job opportunities.

3. Lastly, students receive career advising. This begins in the Public Health Professionalism course students take in their first year, that helps expose students to the wide breadth of careers available in the field of public health and develops networking, resume and cover letter writing, and related professional skills such as communication and leadership. This transitions into one-on-one career advising as students enter their final year of the program to help them hone in on finding jobs in their interest area, fine-tune resumes and cover letters, practice interviews, and gain additional support as needed, such as with salary negotiation. Career advising is provided by the MPH Director and Assistant Director.

Enrollment
Describe how this revision will impact enrollment and degrees awarded.

No impact.

Estimated Annual Number of Degrees Awarded

| Year One Estimate | 1 | 5th Year Estimate (or when fully implemented) | 3 |

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Tuition Rate: The tuition rate for the MPH in Epidemiology is already established at graduate base tuition + $3,000 for the year. This is a competitive price in line with similar R1 public school tuition in the state (ex: UIC), and significantly lower than private school tuition (ex: Loyola or Northwestern).

Self-Supporting: The existing MPH in Epidemiology, as well as the MPH in Public Health, is a self-supporting program, and most MPH degrees offered throughout the US are operated in this manner. This is consistent with most professional and practitioner degrees offered in the country as well. In addition, the MPH in Epidemiology program is being launched with funding from the Investment for Growth program on campus, which specifically targets programs that can offer important benefit to students and show financial sustainability for campus.

Will the unit need to seek campus or other external resources? No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g., Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)
Are you seeking a change in the tuition rate or differential for this program?

No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

No impact.

Justification for this request

Program Reviewer Comments
Jon Welty-Peachey (jwpeach) (03/29/22 6:29 am): The program of study revisions look fine from my perspective.
Mary Flaherty (maryflah) (03/31/22 11:11 am): I have on concerns with this proposal.
Suiwen Zou (szou) (03/31/22 10:10 pm): I have no concerns with the proposed changes.
Justin Aronoff (jaronoff) (03/31/22 10:31 pm): The side-by-side comparison appears to be missing. Additionally, the catalog entry references concentration and elective course lists that do not appear to be directly linked to the catalog page.
Reggie Alston (alston) (04/03/22 10:00 am): Rollback: Hi Kristi, please address the comments by Justin. Otherwise, it's ready for prime time. Return to me for approval. Thanks.
Kristi Carlson (carlso1) (04/12/22 2:17 pm): Side-by-side comparison has been added. The concentration and elective courses will be selected from a list provided by the MPH advisor. This list is not intended to be included on the catalog page.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog  Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Joint Program in the Master of Animal Sciences in Animal Sciences and Bachelor of Science in Animal Sciences in the College of Agricultural, Consumer and Environmental Sciences and the Graduate College

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification
Why are these changes necessary?

1) A course requirement is clarified (non-unit courses can count towards the degree requirements provided at least 12 credit hours are on the unit ANSC and at least 12 credit hours are at the 500-level)
2) A temporary course number (ANSC 499) is being updated with the permanent course number (ANSC 442)

Justify

1) The edit reflects the program curriculum approved at the unit, college, and campus levels. An unintentional typo is being fixed.
2) A course received a permanent number.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The learning objectives and learning outcomes assessment remain unchanged. Briefly, the MANS graduate is expected to demonstrate: 1. Graduate-level understanding of essential concepts and approaches in the area of animal science specialization. 2. Capacity to execute a supervised research project including: a) understanding of the scientific method, research objectives, materials and methods, basic data analysis, and appreciation of the findings; and b) leadership on the implementation of essential research activities. 3. Ability to effectively communicate essential disciplinary knowledge and research project findings in oral and written formats. 4. Aptitude to advocate for interdisciplinary research and education efforts to improve food security, food safety, animal and human health and wellbeing or environmental stewardship. The required overall GPA >= 3 for graduation helps in the assessment of learning outcome #1. The discipline seminar aids in the assessment of learning outcomes #3. The graded research project report complement the assessment of learning outcomes #2 and #4. Program assessment information is summarized in a report and shared with the unit executive officer, faculty members at large and affiliated to the graduate program committee, and with members of the graduate student association. Outcomes from the annual study of enrollment, progression, and degree completion information will be discussed. Plans to address weaknesses will be developed in consultation with the previous stakeholders.

The program is not aligned with licensures or certifications.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab
The joint BS/MANSC program in Animal Sciences integrates a baccalaureate (BS) in Animal Sciences preparation with a non-thesis Master of Animal Sciences (MANSC) preparation. Students enrolled in the BS in Animal Sciences program that have completed a minimum of 60 credit hours of degree requirements and that have a minimum GPA of 3.0 are eligible to apply and be admitted to this program. Students that have a GPA above 2.75 may be admitted on probationary status. The Department of Animal Sciences will support the application to the MANSC program of the students in this joint program that have completed the required 126 credit hours towards a BS in Animal Sciences degree (including a minimum of 40 hours of 300- or 400- level courses) and that have a minimum GPA of 3.0. Up to 12 graduate-level (400- or 500-level) credit hours from the BS program will count towards the 32 credit-hour requirement of the MANSC program.

Humanities and the Arts
Courses selected from campus approved list 6
Social Sciences
ECON 102 Microeconomic Principles 3
or ACE 100 Introduction to Applied Microeconomics
Additional social or behavioral science course; cannot be an economics course. 3-4
ACES Required
ACES 101 Contemporary Issues in ACES 2
Animal Sciences Required
ANSC 100 Intro to Animal Sciences 4
ANSC 101 Contemporary Animal Issues 3
ANSC 103 Working With Farm Animals 2
ANSC 221 Cells, Metabolism and Genetics 3
ANSC 222 Anatomy and Physiology 3
ANSC 223 Animal Nutrition 3
ANSC 224 Animal Reproduction and Growth 4
ANSC 298 Animal Science Careers and Professional Development 1
ANSC 398 UG Experiential Learning 1 1
ANSC 498 Integrating Animal Sciences 2
Other Requirements
Grad Other Degree Requirements
Requirement Description
Minimum 300- and 400- level courses included in the 126 hours for the B.S. degree 40
Minimum GPA: 3.0
1
ANSC 398 only fulfills the degree requirement when taken for a standard letter grade.
For the Bachelor of Science students must choose one of the concentrations, Companion Animal & Equine Science, Food Animal Production & Management, or Science, Pre-Veterinary & Medical listed below:
Course List
Code Title Hours
ANSC 250 Companion Animals in Society 6
& ANSC 307 and Companion Animal Management
or
ANSC 206 Horse Management 6
& ANSC 306 and Equine Science
Select two of the following Applied Sciences courses: 1
ANSC 201 Principles of Dairy Production
ANSC 204 Intro Dairy Cattle Evaluation
ANSC 205 World Animal Resources
ANSC 206 Horse Management 1
ANSC 211 Breeding Animal Evaluation
ANSC 219 Meat Technology

</tbody>
</table>

The individual research studies project or internship experience and a written report will fulfill the ANSC 593 (Research Studies in Animal Sciences) capstone project requirement. The project or internship and the written product will be supervised by the Animal Sciences faculty mentor and provide evidence that the student can understand and apply the scientific method, interpret scientific information; and effectively communicate scientific information in a field of animal sciences.

</tbody>
</table>

1 Equivalent course requires departmental approval. ANSC 499 must be the 'Intro to Data Analytics'-section

2 In consultation with their Animal Sciences faculty advisor, students will select courses that support the individual research studies project and strengthen career opportunities.

3 The individual research studies project or internship experience and a written report will fulfill the ANSC 593 (Research Studies in Animal Sciences) capstone project requirement. The project or internship and the written product will be supervised by the Animal Sciences faculty mentor and provide evidence that the student can understand and apply the scientific method, interpret scientific information, and effectively communicate scientific information in a field of animal sciences.

</tbody>
</table>
What is the typical time to completion of this program?
5 yrs

What are the minimum Total Credit Hours required for this program?
146

What is the required GPA?
3.0

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:
On Campus and Online - 2 program types. Students can receive the entire program either on campus or online. Students can choose to take courses in either modality.

Describe the use of this delivery method:
Addition of online delivery to the Animal Sciences, MANSC. This revision does not impact the BS component of this joint program.

Admission Requirements

Desired Effective Admissions Term

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how critical academic functions such as admissions and student advising are managed.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

NA

Estimated Annual Number of Degrees Awarded

| Year One Estimate | 5 (3 years after admission) | 5th Year Estimate (or when fully implemented) | 15 |
Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Additional Budget Information
The proposed revision is not expected to have an impact on the budget.

The proposed program builds on existing undergraduate and graduate programs. No additional costs are anticipated because the existing programs and most of the animal sciences courses are at under-capacity. Students will be assessed tuition charges corresponding to the BS first, and once admitted by the Graduate College, tuition charges will correspond to those of the MANSC program. No campus or external resources will be requested.

Students in the proposed program will be enrolled in the existing BS and MANSC programs and will take existing animal sciences courses (please refer to Appendix). The existing programs and most of the animal sciences courses are at under-capacity. The proposed joint program and the expected enrollment will make effective use of the resources in place. Students pursuing independent projects will benefit from ongoing researcher projects directed by animal sciences faculty. No new courses are proposed.

Financial Resources

How does the unit intend to financially support this proposal?
The proposed revision is not expected to change the present financial support offered by the unit.

The proposal integrates programs that already in place within the Department of Animal Sciences. The instructional resources are not at capacity and the education and mentoring of students in the proposed self-supported program will not result in additional fixed costs. Once the program is established, a potential minor increase in variable costs associated with additional teaching assistant support can be defrayed with income from the self-supported MANSC degree.

Will the unit need to seek campus or other external resources?
No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)
Are you seeking a change in the tuition rate or differential for this program?  
  No

Resource Implications

Facilities
Will the program require new or additional facilities or significant improvements to already existing facilities?  
  No

Technology
Will the program need additional technology beyond what is currently available for the unit?  
  No

Non-Technical Resources
Will the program require additional supplies, services or equipment (non-technical)?  
  No

Resources
For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Faculty Resources
Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.
  na

Library Resources
Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog
Summer 2022

Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Master of Animal Science in Animal Sciences in the College of Agricultural, Consumer and Environmental Sciences and the Graduate College
Program Justification

Why are these changes necessary?

1) A course requirement is clarified (non-unit courses can count towards the degree requirements provided at least 12 credit hours are on the unit ANSC and at least 12 credit hours are at the 500-level)
2) A temporary course number (ANSC 499) is being updated with the permanent course number (ANSC 442)

Justification:

1) The edit reflects the program curriculum approved at the unit, college, and campus levels. An unintentional typo is being fixed.
2) A course received a permanent number.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The learning objectives and learning outcomes assessment remain unchanged. Briefly, the MANSC graduate is expected to demonstrate: 1. Graduate-level understanding of essential concepts and approaches in the area of animal science specialization. 2. Capacity to execute a supervised research project including: a) understanding of the scientific method, research objectives, materials and methods, basic data analysis, and appreciation of the findings; and b) leadership on the implementation of essential research activities. 3. Ability to effectively communicate essential disciplinary knowledge and research project findings in oral and written formats. 4. Aptitude to advocate for interdisciplinary research and education efforts to improve food security, food safety, animal and human health and wellbeing or environmental stewardship. The required overall GPA >= 3 for graduation helps in the assessment of learning outcome #1. The discipline seminar aids in the assessment of learning outcomes #3. The graded research project report complement the assessment of learning outcomes #2 and #4. Program assessment information is summarized in a report and shared with the unit executive officer, faculty members at large and affiliated to the graduate program committee, and with members of the graduate student association. Outcomes from the annual study of enrollment, progression, and degree completion information will be discussed. Plans to address weaknesses will be developed in consultation with the previous stakeholders.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  Attach a side-by-side comparison with the existing program
AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab
The proposed program revision does not impact the Overview tab in the catalog.

changes to the Degree Requirements TAB:
In consultation with their Animal Sciences faculty advisor, students will select courses that support the individual research studies project and strengthen career opportunities.

The individual research studies project or internship experience and a written report will fulfill the ANSC 593 (Research Studies in Animal Sciences) capstone project requirement. The project or internship and the written product will be supervised by the Animal Sciences faculty mentor and provide evidence that the student can understand and apply the scientific method, interpret scientific information; and effectively communicate scientific information in a field of animal sciences.

MANSC Master of Animal Sciences

Program Features

Academic Level: Graduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program? 1 year

What are the minimum Total Credit Hours required for this program? 32

What is the required GPA? 3.0

CIP Code: 010901 - Animal Sciences, General.

Is This a Teacher Certification Program? No

Will specialized accreditation be sought for this program? No

Delivery Method

This program is available:

On Campus and Online - 2 program types. Students can receive the entire program either on campus or online. Students can choose to take courses in either modality.
Both, the face-to-face and the online deliveries of the MANSC program encompass two types of credit hour offerings, traditional courses and seminars and mentored research studies. The face-to-face program is heavily centered on in-person, face-to-face classes and seminars series, and in-person face-to-face interactions with the faculty mentor who advises the student on the research studies project (ANSC 593). Some courses include online sections or are offered completely online, and some seminars can accommodate for remote students.

Students in the online MANSC program will register for online classes and seminars, or offerings that have dual delivery method (e.g. ANSC 422, ANSC 424, ANSC 440, ANSC 444, ANSC 445, ANSC 542, ANSC 525, ANSC 590, ANSC 591). The online course offerings are delivered through Compass 2G (Blackboard). Faculty advising of students in the online MANSC program on ANSC 593 research studies and seminars will use the Zoom platform for virtual face-to-face meetings.

Admission Requirements

Desired Effective Admissions Term

Fall 2021

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

The proposed revisions to the MANSC graduation requirements do not impact the admission requirements. Applications to the MANSC program require baccalaureate degree transcripts, GPA >=3, resume, personal statement, Graduate Record Examination (GRE) general test scores, and three letters of recommendation. One letter of recommendation must be provided by an Animal Sciences faculty member committed to advise the student on a particular independent studies project. A departmental committee will evaluate the applications and recommend admissions.

Describe how critical academic functions such as admissions and student advising are managed.

The proposed revisions to the MANSC graduation requirements do not impact the academic functions. The program will be administered by the Department of Animal Sciences Graduate Programs Office including a Director of Graduate Studies and two personnel with graduate contact roles. The student is advised by the Animal Sciences faculty mentor in coursework, research study and career matters and by the Programs Office in administrative matters such as registration and petitions. Faculty members will review applications, make admission decisions, review the research studies memorandum of agreement between the student and advisor, and offer annual evaluations to the student.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

The revisions will not impact enrollment or degrees awarded.

Proposal Title
Effective Catalog  Fall 2022

Term

Provide a brief, concise description (not justification) of your proposal.

Revise the concentration in Medieval Studies in the College of Liberal Arts and Sciences and the Graduate College

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

At least one current graduate student in Anthro is interested in the concentration. We will not be making any changes to the curriculum at this time, just adding one more department whose graduate students can declare the concentration as it currently stands.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

N/A

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses“ (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.
Revised programs

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Two graduate courses at the 400- or 500-level in Medieval Studies selected by the student and approved by the Advisory Board of Medieval Studies

Reading knowledge of a major international medieval language essential to the student's field of specialization, as determined by the student in consultation with a faculty supervisor and with the approval of the Director, as demonstrated by completion of a college-level course with a grade of B or better. Note: Students who fulfill this requirement by taking courses at the 200- or 300-level may be required to take additional coursework at the 400- and 500-level to meet the requirement of 24 hours of graduate-level coursework.

Reading knowledge of another medieval language with a minimum grade of B, or completion of a one-semester introductory course in a medieval language (such as FR 531 or ENGL 507) with a minimum grade of B, or an equivalent approved by the Medieval Studies Advisory Committee.

Thesis Hours Required (min/max applied toward degree) 6-8

Total Hours 24

Other Requirements

Grad Other Degree Requirements

Description

Other requirements may overlap

A dissertation or thesis in the area of Medieval Studies.

A member of one of the cooperating departments external to the student's home department will be a member of the student's dissertation or thesis committee.

In addition to the graduate concentration requirements, students must also complete the requirements of their major degree.

Proposal Title

Effective Catalog Spring 2023
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the concentration in Data Science and Engineering in the Grainger College of Engineering and the Graduate College

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

Correcting an entry error in the Program of Study table. The original proposal listed the same course twice (Once as CSE 448 and once as STAT 448) in the Program of Study table while CSE 428: Statistical Computing (same as STAT 428) was left out. This proposal corrects the mistake by adding CSE 428 and removing the duplicate course entry.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The learning objectives of the concentration include satisfactory completion of the core coursework along with completion of the electives component. These are selected in consultation with the unit and based on the Strategic Plan Task Force report on Data Science Education at the University of Illinois at Urbana-Champaign, which highlights key areas of data science in the curriculum, namely mathematical foundations, computational thinking, statistical thinking, data management, data description and curation, and data modeling.

Is the career/profession for graduates of this program regulated by the State of Illinois? No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs DSE Concentration Side-by-Side.xlsx

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab
The Data Science & Engineering (DSE) Transcriptable Graduate Concentration is designed primarily for graduate students at the Ph.D. levels with an interest in data intensive computing. Data science plays a major role in many areas of computational science and engineering (CSE) — the DSE Concentration is open to domain scientists working in this area. This concentration requires students to complete 16 graduate credit hours spanning data science, from topics in mathematical foundations (MF), computational thinking (CT), statistical thinking (ST), as well as data management, description, and modeling (DX). Courses taken toward this concentration will count towards the student’s graduate degree if permitted by the curriculum of their major, and the concentration will be listed on their transcript upon graduation.

Note: A graduate concentration is only available for students enrolled in participating graduate degree programs.

To fulfill the requirements of the graduate concentration, students will take courses selected from an established list of core courses, along with a course from a selection of elective courses that span a range of domain areas. Students may select any course in the list of electives, regardless of their enrolled degree program.

Additionally, understanding the ethical and societal implications of the application of data science is paramount, and CSE will integrate the latest topics to help educate future data scientists on appropriately developing and applying data science algorithms that impact society. To ensure that students in the Data Science & Engineering Graduate Concentration are exposed to current topics in this area and to highlight the how data science decisions can have real-world significance, CSE will (1) require that all DSE-seeking students attend at least one seminar on data science and social justice and (2) complete the self-paced Practical Data Ethics course developed by the UCSF Center for Applied Data Ethics. Students must affirm that they completed the course and will be required to report on their experience in order to receive the DSE Concentration. CSE will annually evaluate this requirement as additional on- and off-campus resources become available.

Program Features

Academic Level: Graduate

Is This a Teacher Certification Program?  
No

Will specialized accreditation be sought for this program?
This estimated enrollment is expected at around 25 students for the first year, and growing as course capacities are assessed. This is based on an estimated five students per participating department, which is initially five. Based on the Computational Science and Engineering (CSE) concentration, we anticipate strong interest and that this concentration could grow well into the hundreds.

The Education Coordinator in CSE currently oversees curriculum change and guidance for the unit. This coordinator will also take on the role of advising and curriculum changes for DSE@. There is natural overlap with the two programs and for the first years we anticipate absorbing this additional advising capacity without issue. As the program scales, some advising will naturally fall with the home unit (e.g., during graduate student recruitment), however as with the CSE concentration we do not foresee these demands to be significant.

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

N/A

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Advising will be handled by existing staff.

Attach File(s)
Financial Resources

How does the unit intend to financially support this proposal?

The education coordinator for Computational Science and Engineering will take on the majority of the advising, curriculum changes and coordination, and promotional materials for the concentration. Recurring state funds that support the unit will be used to continue to support the staffing of this position.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Is this program requesting self-supporting status?

No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

N/A
Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Communicate concerns to reynold@illinois.edu.

Does this program have inter-departmental administration?
Proposal Title

Effective Catalog: Fall 2022

Term

Provide a brief, concise description (not justification) of your proposal.

Revise the concentration in Vocal Coaching and Accompanying in the Master of Music in Music in the College of Fine and Applied Arts and the Graduate College.

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

The Master of Music concentration in Vocal Coaching and Accompanying is key 822.

Program Justification

Why are these changes necessary?

This proposal is to replace one course rubric and number in this concentration with its new rubric and number. MUS 577 (old) is now MUSC 507 (new). The course content of "Graduate Level Vocal Coaching" will not change.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

Students in the Master of Music program, with concentrations in Performance and Literature or Vocal Coaching and Accompanying will:

1. Develop performance skills at a high professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity and collaboration as appropriate, and will communicate their artistry to diverse audiences.

2. Exhibit an ability to summarize, synthesize, and discuss disciplinary content (including pedagogical material) in relation to their major area of study, and to communicate their findings, using appropriate academic conventions, in written or oral form.

3. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.

4. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.

5. In addition, some Illinois MM students will develop experience and expertise in instruction, pedagogy, and student assessment in one or more areas of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs

Revision_MM-Vocal-Coaching-and-
Accompanying_SP22.pdf

Attach a side-by-side comparison with the existing program

AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>  

Does this program have inter-departmental administration?  
Yes  

Interdisciplinary Colleges and Departments (list other colleges/departments which are involved other than the sponsor chose above)  

Please describe the oversight/governance for this program, e.g., traditional departmental/college governance. Inclusion of/roles of elected faculty committees? Inclusion of/roles of any advisory committees.  

A Memorandum of Understanding was initially created to cover the agreements of a partnership between AHS and FAA for current UIUC students seeking dual degrees in Dance and Kinesiology. As part of this, the units designated faculty coordinators who serve as primary contacts between the units and will minimally meet one time per academic year.

College  
Applied Health Sciences  

Department  
Kinesiology and Community Health  

Is there an additional department involved in governance?  
No

Proposal Title

Effective Catalog  
Fall 2022  
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Bachelor of Arts in Dance and Bachelor of Science in Kinesiology Dual Degree in the College of Fine and Applied Arts and College of Applied Health Sciences

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Related to proposal for BA Dance, key 132 already approved.

Program Justification
Why are these changes necessary?

Effective 3/16/22 for Fall 2022 implementation, the BA Dance program (key 132) had structural changes to use umbrella courses to allow for varied offerings of types of dance. Overall, the curricular changes provide more flexibility to students and do not extend the total hours required for the dual degrees to be obtained.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

See corresponding programs for individual curricula and course assessment.

The dual degree pathway will be discussed and evaluated annually by the appointed Faculty Coordinators from Dance and Kinesiology.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry.

Contact your college office if you have questions.

Revised programs

FA 22 revision BA Dance BFA Kines side by side.xlsx
Sample Schedule Dance Kinesiology Dual Degrees Pathway 5 23 22.docx

Attach a side-by-side comparison with the existing program

AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and
number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Department of Dance
department website: http://dance.illinois.edu/
overview of college admissions & requirements: Fine & Applied Arts college website: https://faa.illinois.edu/
email: dance@illinois.edu

The BA curriculum in dance is designed to provide an integrated and individualized approach to undergraduate studies of dance. The degree is designed for students who want to explore interdisciplinary approaches to art-making, and/or simultaneously pursue a minor or major in another discipline. Students will study three core areas in Dance: Technique, Creative Process, and Dance Academics. The key other area of interest for this Dual Degree Pathway is Kinesiology. Under the mentorship of a faculty member, students will create a BA Capstone Project in their senior year as a synthesis of the studies within dance and another area of study.

Department of Kinesiology & Community Health
Department Website: http://www.kch.illinois.edu/
Department Faculty: Kinesiology & Community Health Faculty
College Website: http://www.ahs.illinois.edu/

The Kinesiology curriculum leads to a bachelor of science degree that will prepare students for careers in human movement-related fields and/or advanced professional or graduate study. The undergraduate program provides the student with a broad general education, a departmental core integral to the understanding of the diverse aspects of human movement, and a correlate area of courses specific to the student's area of concentration within Kinesiology, which in this Dual Degree Pathway is Dance.

Statement for Programs of Study Catalog

Students are expected to follow all the degree requirements of each degree and may double-count courses, provided the total number of credit hours earned is 158.

**Program Features**

- **Academic Level**: Undergraduate

- **What is the typical time to completion of this program?**
  
  *5 years*

- **What are the minimum Total Credit Hours required for this program?**
  
  *158*

- **Is This a Teacher Certification Program?**
  
  *No*

- **Will specialized accreditation be sought for this program?**

  *No*

**Delivery Method**

This program is available:

- **On Campus** - Students are required to be on campus, they may take some online courses.

**Admission Requirements**

- **Desired Effective Admissions Term**: Spring 2022

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

A NONE major code will be developed upon approval of this proposal, which will be added to the freshman and transfer admissions applications to allow prospective students to apply directly into the BA Dance/BS Kinesiology Dual Degree pathway. While the program is ideal for freshman admissions, off-campus transfer students are still eligible to apply into the pathway with clear communication that it will still require a minimum of four full years to be completed at Illinois. Both colleges will conduct an academic review and FAA/Dance will require a dance audition. Essentially both college admissions committees will be reviewing students admitted into the DD pathway and students will need to meet the criteria of both areas for admission.
Describe how critical academic functions such as admissions and student advising are managed.

This pathway will be added as a major set for New Student Registration under Dance and advising will be coordinated between Dance and Kinesiology advisors. For ongoing advisor, one Dance faculty member is designated to support advising for students in this degree pathway and the Kinesiology advisors assign students by last name. Advising will be done independently and conjunctly to confirm students are meeting all degree requirements.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

No impact.

Estimated Annual Number of Degrees Awarded

<table>
<thead>
<tr>
<th>Year One Estimate</th>
<th>0</th>
</tr>
</thead>
<tbody>
<tr>
<td>5th Year Estimate (or when fully implemented)</td>
<td>8</td>
</tr>
</tbody>
</table>

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Update from requested revisions: For the tuition split with AHS, the FAA differential will flow to FAA, and the majors will be split between the two Colleges for IVCB. The IUs will flow as they would otherwise, giving credit to the paying College. See attached confirmations from Greg Anderson (FAA), Suzanne Rinehart (AHS), and Jamie Hackett (Provost's Office).

--

Students enrolled in this DD will pay the FAA differential tuition rate, with funds diverted to AHS manually to split the base rate for R/NR/I with FAA keeping the differential portion.

Will the unit need to seek campus or other external resources?

No
Attach letters of support

What tuition rate do you expect to charge for this program? e.g., Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

   No

**Resource Implications**

**Facilities**

Will the program require new or additional facilities or significant improvements to already existing facilities?

   No

**Technology**

Will the program need additional technology beyond what is currently available for the unit?

   No

**Non-Technical Resources**

Will the program require additional supplies, services or equipment (non-technical)?

   No

**Resources**

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

**Faculty Resources**

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

   See BA Dance. No impact on DD resources.

**Library Resources**
Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this dual degree program revision.

Administration Details

Official Program Name: Social Work **Minor, UG Minor**

Sponsor College: Social Work, School of

Sponsor Department: Social Work

Sponsor Name: Erin Cockrum

Sponsor Email: cockrum@illinois.edu

College Contact Name: Erin Cockrum

College Contact Email: cockrum@illinois.edu

College Budget Officer

College Budget Officer Email

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?
No

Proposal Title
Provide a brief, concise description (not justification) of your proposal.

Revise the Undergraduate Minor in Social Work in the School of Social Work

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

Allow more elective options for SSW minors

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

N/A

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

“Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponoring unit do not count toward this total. The unit sponsoring the minor and that unit’s college may set educationally necessary
prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

### Delivery Method

This program is available: On Campus - Students are required to be on campus, they may take some online courses.

### Enrollment

- Will the department limit enrollment to the minor? **No**
- Describe how the department will monitor the admission to/enrollment in the minor.

- Are there any prerequisites for the proposed minor? **No**
- Describe how this revision will impact enrollment and degrees awarded. **N/A**

### Budget

- Are there budgetary implications for this revision? **No**
- Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?  
No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?  
No

Technology

Will the program need additional technology beyond what is currently available for the unit?  
No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?  
No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

Initiator will make all edits and respond to any questions.

Does this program have inter-departmental administration?
No

Proposal Title
Effective Catalog Fall 2022
Program Justification

Why are these changes necessary?

We propose three changes to the HDFS BS curriculum.

1) We propose adding HDFS 445: Substance Use and Family Health to the Individualized Plan course options.

2) We propose removing ACES 101 as a required course.

3) Editing the general education area of the table to better communicate requirements:

For revision 1: Students select 16-18 hours toward an Individualized Plan based on their individual career goals. At least 15 of these hours must be 300 level or above. Adding HDFS 445 provides an additional upper level option for students to choose from that may fit their specific professional interests.

For revision 2: Students are required to take HDFS 101, a 16-week course with substantial overlap in content with ACES 101.

For revision 3: Students can take any advanced composition, but HDFS 290 is required in the degree and will count for both areas. The hours and descriptions of gen ed categories were edited to better match the requirements set by campus. Some gen eds have a specific number of hours while others need categories met.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

All courses/requirements have been selected because they address the learning objectives of the major (see below). We use student performance in these courses as benchmarks to ensure that students have achieved these educational goals. The HDFS curriculum regularly undergoes assessments as part of the campus-wide initiative to assess student learning outcomes. We will continue this practice for the revised curriculum, which includes annual reports to campus and the department.

HDFS Student Learning Outcomes
1. HDFS students will demonstrate a strong foundation in theories and empirical knowledge associated with human development and family studies (i.e., developmental periods and domains; socialization contexts; diversity among families and children; research methods; family dynamics, transitions, and resilience; and family policy)
2. HDFS students will exhibit the skills necessary to effectively apply knowledge and generate new ideas to solve real world issues
3. HDFS students will demonstrate a critical and reflexive orientation toward and sensitivity to issues of diversity and inclusion
4. HDFS students will develop professional competence skills and establish well-informed career and professional goals

Is the career/profession for graduates of this program regulated by the State of Illinois?
No

Program of Study

“Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry.

Contact your college office if you have questions.

Revised programs

HDFS Curriculum Revisions Side by Side_HDFS 445.docx

Attach a side-by-side comparison with the existing program
AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab
The Human Development and Family Studies program prepares students for graduate/professional education or employment in areas such as pediatric services in hospitals, medicine and allied health fields, marriage and family therapy, family law, human resources, child care services, family life education, social work, counseling, human services, and business activities related to children and families. Students select course work according to their interests in human development, such as infancy, early childhood or adolescence, and relationship and family science, such as intimate relationships, parent-child interaction, and family stress and change. Basic courses in these areas are linked to practical experiences in educational and community settings, and most courses emphasize issues related to cultural diversity and gender. Students develop an individualized plan within this major according to their career and professional interests.

### Prescribed Core Courses including Campus General Education

Minimum of 40 hours of advanced credit required
Total Hours 126

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations?
No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
126

Is This a Teacher Certification Program?
This program is available:
   On Campus - Students are required to be on campus, they may take some online courses.

**Admission Requirements**

Desired Effective Term

Admissions Term: Fall 2022 2021

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

We follow the University of Illinois admissions guidelines. The College of ACES manages all freshmen and transfer admissions.

Describe how critical academic functions such as admissions and student advising are managed.

The College of ACES manages all undergraduate admissions. We have a full-time academic advisor who provides advising to all HDFS students.

**Enrollment**

Describe how this revision will impact enrollment and degrees awarded.

We do not anticipate any impacts on enrollment or degrees awarded.

**Estimated Annual Number of Degrees Awarded**

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

**Budget**

Are there budgetary implications for this revision?

No
Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
   No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?
   We do not anticipate any financial costs associated with this revision. No additional financial support is needed.

Will the unit need to seek campus or other external resources?
   No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g., Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?
   No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?
   No

Technology

Will the program need additional technology beyond what is currently available for the unit?
   No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?
   No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result
in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

We do not anticipate any impact on faculty resources with the proposed changes.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

We do not anticipate any impact on faculty resources with the proposed changes.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.
KR Dean (nicturn@illinois.edu)
Does this program have inter-departmental administration?
No

Proposal Title
Effective Catalog Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.
Revise the Bachelor of Fine Arts in Dance in the College of Fine and Applied Arts

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?
No change in overall credit hours to major, simply provides students 1 additional option to complete requirements.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?
No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

Upon graduation, new alumni of the Bachelor of Fine Arts Program will be able to:

2. Confidently teach a class that evinces deep physical and contextual understanding of a movement practice while paying attention to community building, safety, inclusiveness, and strategic educational engagement.
3. Communicate ideas about dance through physicality, written and oral platforms both in person and online, in publication or publicity that evidence clarity and consideration of multiple perspectives.
4. Utilize technology and various media both as a creative tool and as a means for increasing positive visibility for dance.
5. Articulate the socio-political, cultural, historical impact of Dance and its potential to contribute to global dialogue and inquiry.
6. Participate in and develop creative processes, conduct choreographic and performative research, and disseminate that research in theatrical events.
7. Utilize various approaches to the body and understand the context in which those approaches were founded.
8. Model good citizenship and community-building in their future environments.

The Undergraduate Director leads the assessment process. The director works with the department head and the Undergraduate Committee to accomplish the goals of the program. The Department of Dance holds two annual “retreat” style faculty meetings to study assessment processes and make evaluations for curricular change. Regular assessment reports based upon student surveys, as well as larger efforts such as the National Association of Schools of Dance assessment review, last completed in 2017, and Provost’s Academic Review, last completed in 2021, are reviewed and analyzed, and changes/updates are implemented.

Assessment Instruments include:
· Undergraduate and Graduate Exit Surveys
· Alumni Surveys
· Guest Artist Surveys
· Undergraduate and graduate student boards meet regularly with the Head and/or UG/G Directors to assess the program
· Sophomore Review: Faculty evaluate student progress towards graduation and career potential through performance and written materials and an interview.
· Townhalls: 1–2 departmental meetings each semester for information and resource sharing between students and faculty.
· UG Curricular Feedback Session: Annual spring forum for UG to provide feedback to the Head and UG Director about curriculum, performance, casting, or other issues.
· One-on-one evaluative meetings at midterm in every course between students and faculty each semester
Metrics include:
· BFA senior thesis project, in which faculty assess the achievement of the programmatic objectives
· Faculty observations of student performance on a regular basis to make sure students are progressing toward meeting objectives
· Regular review of alumni employment, entrance into graduate programs, performances mounted, and awards and honors received

The University of Illinois at Urbana-Champaign is accredited by the National Association of Schools of Dance, and regularly undergoes accreditation review.

Is the career/profession for graduates of this program regulated by the State of Illinois?
No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  
10KR0261BFA Dance, side by side for CIM
51922 revision.docx

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.
The BFA program in Dance offers intense dance training, multicultural movement practices, and meaningful interactions with faculty that prepare students to enter the world of dance as professional dancers and informed citizens. Each year of the students’ education has a theme that designates a gestalt of competencies designed to progress yearly through the curriculum. First-years ACTIVATE (through technique classes, repertory and a first semester performance experience); sophomores DELVE (taking multiple physical practice, context and creative practice classes and being reviewed by a faculty committee); juniors ARTICULATE (with one semester spent abroad or on campus taking multi-disciplinary coursework); and seniors LAUNCH (taking career seminar, connecting with an alumni mentor, and producing their own work).

The BFA curriculum offers coursework in the areas of technique, composition, performance, theory, media, career preparation, improvisation, music studies, pedagogy, history, movement sciences, and repertory. Electives may be taken in a range of techniques, choreographic laboratory, and independent studies.

Specific Program requirement areas are as follows:
4 credits in Foundations, 27 credits in Physical Practice, 8 credits in Creative Practice, 8 credits in Performance, 3 credits in Production, 20 credits in Context, 5 credits in Synthesis, and 5–7 credits in Focused Electives.

Evaluation of majors is an ongoing process. Continued enrollment in the program is contingent upon satisfactory performance. A student is expected to maintain a minimum 2.75 grade point average in all dance coursework in order to remain in good standing in the department.

It is possible for transfer students to complete degree requirements in a three-year period contingent upon prior completion of general education requirements.

A total of 130 hours is required for this degree.

**Minimum hours for graduation:** 130 hours.

The Language Requirement may be satisfied by:
- Successfully completing a third-semester college-level course in a language other than English;
- Successful completion, in high school, of the third year of a language other than English; or
- Demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

Program Features

Academic Level  Undergraduate

Does this major have transcripted concentrations?  No

What is the typical time to completion of this program?  4 years

What are the minimum Total Credit Hours required for this program?  130

CIP Code  500301 - Dance, General.

Is This a Teacher Certification Program?
Will specialized accreditation be sought for this program?
No

Delivery Method
This program is available:
On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements
Desired Effective Admissions Term
Fall 2022

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

In addition to university admission requirements—application, high school transcript, and test scores (where applicable)—admission requirements for the BFA in dance include successful completion of an audition process, comprised of dance technique class, a solo performance, and interview with faculty. Transfer students must follow same audition process for admission.

Describe how critical academic functions such as admissions and student advising are managed.
Members of the Dance Department Undergraduate Committee make admissions decisions, as well as assignment of scholarship monies at admission and yearly adjustments. The Co-Director of Undergraduate Education in charge of admission organizes auditions and oversees applications, and all committee members deliberate and decide on acceptance offers.

Student advising is managed by members of the Undergraduate Committee and overseen by the Co-Director of Undergraduate Education in charge of student experience. Each student is assigned a faculty advisor with whom they meet regularly. Faculty advisors receive regular training by the Co-Director of Undergraduate Education.

Enrollment
Describe how this revision will impact enrollment and degrees awarded.

no impact

Estimated Annual Number of Degrees Awarded
Year One Estimate 5th Year Estimate (or when fully implemented)
What is the matriculation term for this program?
Fall

Budget
Are there budgetary implications for this revision?
No
Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Additional Budget Information
Attach File(s)

Financial Resources
How does the unit intend to financially support this proposal?
Program revision does not alter current financial resources used to support the program.
Will the unit need to seek campus or other external resources?
No
Attach letters of support
What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)
Fine & Applied Arts Differential Undergraduate Rate
Are you seeking a change in the tuition rate or differential for this program?
No

Resource Implications
Facilities
Will the program require new or additional facilities or significant improvements to already existing facilities?
No
Technology
Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this BFA program revision.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

KR Dean
Proposal Title

Effective Catalog  Fall 2022

Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Bachelor of Science in Architectural Studies in the College of Fine and Applied Arts

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

Degree Requirements tables are being updated with new GGIS course rubric (previously GEOG). Removing footnotes per campus request.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

*Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60
All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  Attach a side-by-side comparison with the existing program
AND, if the revision references or adds “chose-from” lists of
courses students can select from to fulfill requirements, a listing
of these courses, including the course rubric, number, title, and
number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new
catalog page for the program. Can be edited in the catalog by the college or department.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Matthew Cohn

Does this program have inter-departmental administration?
No

### Proposal Title

<table>
<thead>
<tr>
<th>Effective Catalog</th>
<th>Term</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Fall 2022</td>
</tr>
</tbody>
</table>

Provide a brief, concise description (not justification) of your proposal.

Revise the concentration in Geographic Information Science in the Bachelor of Science in Liberal Arts and Sciences in Geography and Geographic Information Science in the College of Liberal Arts and Sciences

List here any related proposals/revisions and their keys. Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).

### Program Justification

Why are these changes necessary?
Replacing CS 125 with CS 124 since Computer Science discontinued CS 125.

### Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?
No

### Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

N/A
Is the career/profession for graduates of this program regulated by the State of Illinois?
No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry.
Contact your college office if you have questions.

Revised programs
Attach a side-by-side comparison with the existing program
AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

**Corresponding Program(s):**

- Geography & Geographic Information Science, BSLAS

**Program Features**

**Academic Level**: Undergraduate

**Is This a Teacher Certification Program?**

No

**Will specialized accreditation be sought for this program?**
This program is available:
On Campus - Students are required to be on campus, they may take some online courses.

**Delivery Method**

**Enrollment**
Describe how this revision will impact enrollment and degrees awarded.
No impact

**Budget**
Are there budgetary implications for this revision?
No
Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

**Financial Resources**
How does the unit intend to financially support this proposal?
Will the unit need to seek campus or other external resources?
No

**Resource Implications**
**Facilities**
Will the program require new or additional facilities or significant...
improvements to already existing facilities?
   No

Technology
   Will the program need additional technology beyond what is currently available for the unit?
   No

Non-Technical Resources
   Will the program require additional supplies, services or equipment (non-technical)?
   No

Resources
   For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.
   Attach File(s)

Faculty Resources
   Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.
   There will be no impact on faculty resources

Library Resources
   Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.
   Current collections and services are adequate for the proposed program

Proposal Title

Effective Catalog Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Undergraduate Minor in Business for Non-Business Majors in the Gies College of Business

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

Requesting addition of four (4) BDI course options for business minor students to complete to meet the Business for Non-Business Majors elective requirement. Students must complete two (2) elective options from the Gies courses listed in the catalog.

Illinois business minor students must complete four (4) core courses, but are allowed to select the Gies elective options that most align with their business educational interests. Adding the Business Data and Innovation course options will provide the approximately 1,500 business minor students with more options to enhance their business education in Gies.

Instructional Resources
Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The Business Minor is designed to offer our campus's Undergraduate Students an opportunity to learn fundamental Accounting, Finance, Management, and Marketing skills used in business. The Gies College will periodically examine the utilities of the Business Minor Elective courses to ensure the academic quality of the Business Minor.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab
The Business Minor is for students earning undergraduate degrees in colleges other than the Gies College of Business. The Business Minor provides coursework through which Non-Business students learn skills used in business. The Business Minor is not available to Gies College students and Technology and Management Minor students. The Business Minor is not to be considered as preparation for transfer into the Gies College to earn an undergraduate Business degree.

To declare their Minors, Non-Business students must submit their Statement of Intent to Pursue a Campus-Approved Minor (Statements) [online, to 1055 Business Instructional Facility (BIF)] at any time.

1. Please note that not every Business Minor course will be offered every Fall and Spring Semesters, Winter Term and Summer Sessions. Students must select judiciously and enroll in the Business Minor courses when they are offered throughout any academic year.

2. Business Minor Students and Prospective Business Minor Students must register for the online sections of all Minor courses if online sections are offered.

3. Business Minor course enrollment instructions are noted in the fall and spring semesters, winter term, and summer session Class Schedule course’s Section Detail & Information in Course Explorer. Students must complete all Business Minor course prerequisites. Students who have not completed a Minor course's prerequisite will have their enrollment canceled in that specific course by the academic departments.

4. A minimum number of off-campus transfer courses will be permitted to fulfill the Minor Core and Elective Course Requirements. You should use the Transferology Program to confirm the off-campus course's transferability to fulfill the Minor requirements. You may confirm with the Business Minor Program if a proposed off-campus course will fulfill the Minor's Core and Elective Course Requirements. In addition, Minor Core and Elective Course Requirements are not fulfilled with study abroad courses in Finance, Information Systems, Operations Management, Management, Marketing, and Supply Chain Management.

5. Courses taken through a University of Illinois's Study Abroad Programs will fulfill the Business Minor Core and Elective Course Requirements. These requirements are fulfilled only if the course taken exactly matches course articulations of the Gies Business course. For example, the study abroad exact equivalent course to our campus's BADM 380 course is an acceptable Business Minor Elective course. Study Abroad BADM 3- - and BADM 4- - courses will not fulfill the Minor’s Core and Elective Course Requirements. In addition, Minor Core and Elective Course Requirements are not fulfilled with study abroad courses in Finance, Information Systems, Operations Management, Management, Marketing, and Supply Chain Management.

The Business Minor is designed to be completed within three academic years. Gies College of Business cannot guarantee minor completion.
Contact busminor@business.illinois.edu to address academic questions.

Statement for
Programs of
Study Catalog
Minimum required Minor and supporting course work: All six Business Minor courses must be earned with Letter Grades. Sophomore standing required to enroll in the four Core Courses. For all Business Minor courses for which online delivery is available, students pursuing the Minor must enroll in the online sections.

</tbody>
</table>
Program Features

Academic Level: Undergraduate
Is this minor? A Comprehensive study in a single discipline

Is This a Teacher Certification Program? No

Will specialized accreditation be sought for this program? No

Other than certification via the students’ degree audits, is there any additional planned mechanism to award/honor successful completion of the minor? No

Delivery Method

This program is available:
Online Only - The entire program is delivered online, students are not required to come to campus.

Describe the use of this delivery method:
Business Minor and Prospective Business Minor students must register for the online sections of all the Minor courses if online sections are offered. Business Minor Core and Elective courses will be offered every fall and spring semester, summer session, and winter term.

See attached email in EP Documentation section for further elaboration on delivery method.

Enrollment

Will the department limit enrollment to the minor? No

Describe how the department will monitor the admission to/enrollment in the minor.

The Business Minor no longer requires a comprehensive admission policy and procedures. The Minor can be earned by our campus’s undergraduate students. Enrollment in Business Minor courses will be limited to the Minor courses's enrollment capacities.

Are there any prerequisites for the proposed minor? Yes
List the prerequisites including course titles and number of credit hours for each prerequisite course, and whether or not these prerequisites count in the total hours required for the minor.

The only prerequisite course now required to earn the Business Minor is either our campus's ECON 102 OR ECON 103 course for enrollment in the Business Minor's Core FIN 221 course.

ECON 102- Microeconomic Principles- 3 credits
ECON 103- Macroeconomic Principles- 3 credits

The ECON 102 and ECON 103 course credits do not count toward the 18 credits required to earn the Business Minor.

Describe how this revision will impact enrollment and degrees awarded.

This revision will not impact enrollment or degrees awarded.

Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?
No

Attach letters of support

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?
No
Technology
Will the program need additional technology beyond what is currently available for the unit?
No

Non-Technical Resources
Will the program require additional supplies, services or equipment (non-technical)?
No

Resources
For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)  BDI Minor Courses.pdf

Library Resources
Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.
The addition of BDI courses will not impact the University Library's resources, collections, and services.

Hi Chaya and Kevin,

Nerissa updated me on her recent conversation with you about the BDI courses. I am fully supportive of adding the BDI electives to the business minor for non-majors. The full list of courses and term offerings are below for your convenience. Please let me know if you require any further information. Thank you in advance for your efforts. Have a nice weekend!

Michael

BDI 367 - Data Visualization and Communication [Offered in Spring]

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Craig Williams, cawllms@illinois.edu
Proposal Title

Effective Catalog: Fall 2023

Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Undergraduate Minor in Classical Languages in the College of Liberal Arts and Sciences

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

We wish to modify the list of elective courses from which students in the Modern Greek minor must take 5 hours. The list of required courses and the total number of hours required for this minor (18) remain the same.

The department’s Committee on Undergraduate Study and Advisory Committee have recommended these modifications, which are important to increase consistency and transparency in the requirements for this track of our Classical Languages minor, to give students more choice, and to more accurately reflect the subject matter. The currently valid list of elective courses specifies two courses (GRK 491 and GRK 493) which are in Ancient Greek, not Modern Greek; this makes little pedagogical sense. We are proposing a larger list of electives which accurately reflect the subject matter of Modern Greek language, literature, and culture and which include existing courses which should previously been included in the list of electives (GRKM 199, GRKM 453, GRKM 454, CLCV 120). Furthermore, in order to give students the ability to deepen their experience of Modern Greek language, literature, and culture, and to carry out independent study and research under faculty guidance, we have initiated the process of creating two new courses (GRKM 492, Senior Thesis; GRKM 493, Independent Reading) which are parallel to existing courses in Ancient Greek (GRK), Latin (LAT), and Classical Civilization (CLCV).

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of
Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The learning objectives for the Modern Greek track within the Classical Languages minor are these:

1. Acquire and retain a detailed knowledge of Modern Greek grammar, syntax, vocabulary, and modes of expression so as to be able to read texts with comprehension.

2. Ancient Greek, Roman, and neighboring languages and civilizations, especially the broader historical, social, and cultural contexts and their development. Situate knowledge of the language within the cultural contexts in which it is used in order to understand the crucial role of language in social dynamics and cross-cultural communication.

2. Acquire familiarity with contemporary methods of cultural and historical analysis to facilitate self-directed inquiry of Ancient Greek, Roman, and neighboring cultures.

3. Acquire an awareness of the place of Ancient Greek, Roman, and neighboring cultures in the western tradition in order to understand connections between past and present.

4. Acquire facility with contemporary methods: an appreciation of literary how the careful engagement with other cultures can facilitate new ways of understanding and historical analysis sufficient to carry out original, self-directed research into Modern Greek literature and interpreting one’s own contemporary culture.

These specific objectives embody the five goal areas established as the World-Readiness Standards for Learning Languages by the American Council on the Teaching of Foreign Languages: communication, cultures, connections, comparisons, communities (https://www.actfl.org). The department’s plan for assessing and improving student learning in the Modern Greek track Acquire an awareness of the Classical Languages minor will be closely aligned with the assessment plan for our programs place of Ancient Greek, Roman, and neighboring cultures in the western tradition in Ancient Greek order to understand connections between past and Classical Civilization submitted in October 2018 and favorably reviewed in February 2021, present.

Is the career/profession for graduates of this program regulated by the State of Illinois?
Program of Study

“Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs

- Classical Languages Minor UG
- Comparative Table.docx
- Modern Greek minor revision proposal March 2022.docx

Attach a side-by-side comparison with the existing program

AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

This minor is sponsored by the Department of the Classics. The department also sponsors a minor in Classical Civilizations. Students choose one of the three tracks - Ancient Greek, Modern Greek, or Latin.

Statement for Programs of Study Catalog

**Ancient Greek Track**

GRK 101, Elementary Greek I, is a prerequisite for subsequent GRK courses and does not count toward the 18 hours for the minor.

6 hours in Latin courses at the 400-level from the following:

- LAT 401 Survey of Latin Literature
- LAT 411 Intermediate Prose Composition
- LAT 460 Medieval Latin
- LAT 491 Readings in Latin Literature
- LAT 493 Independent Reading

**Total Hours** 18
Other than certification via the students’ degree audits, is there any additional planned mechanism to award/honor successful completion of the minor? 

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor? 

No

Describe how the department will monitor the admission to/enrollment in the minor.

We monitor admission to the minor by meeting all prospective minors and advising them through the Director of Undergraduate Studies who signs the Minor Declaration Form before submitting to LAS. Students must submit a Minor form to Undergraduate Studies in the department’s Director of Undergraduate Studies, Department.

Are there any prerequisites for the proposed minor? 

No Yes

Describe how this revision will impact enrollment and degrees awarded.

Because the proposal gives students in this minor more courses to choose from, we expect it will gradually increase enrollment.

Budget

Are there budgetary implications for this revision? 

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? 

No

Additional Budget Information
Financial Resources

How does the unit intend to financially support this proposal?

*There are no budgetary implications, as the courses can be taught by existing faculty.*

No impact on financial resources.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Current resources, collections and services are adequate for the proposed program.

EP Documentation

EP Control EP.23.002
This proposal requires HLC inquiry.

Proposal for revised curricula (degree, major, concentration, minor)
Submit completed proposals via email to Associate Dean Stephen R. Downie (sdownie@illinois.edu). Please obtain Executive Officer and School Director (if applicable) approval via email and forward with the proposal to LAS.

Proposal Title: Revision of the Modern Greek track in the Classical Languages minor, Classics Department
Sponsor(s): Craig Williams, Head, Department of Classics cawllms@illinois.edu
College contact: Stephen R. Downie, Interim Associate Dean for Curricula and Academic Policy, College of Liberal Arts and Sciences, sdownie@illinois.edu
In addition to the unit sponsor(s), who in the unit should be contacted if the College or campus has questions on the proposal?
Does this program have inter-departmental administration? No

PROGRAM DESCRIPTION and JUSTIFICATION

Proposed effective catalog term: Fall 2022

1) Provide a brief, concise description of your proposal. We wish to modify the list of elective courses from which students in the Modern Greek minor must take 5 hours. The list of required courses and the total number of hours required for this minor (18) remain the same.

2) Why are these changes necessary? The department’s Committee on Undergraduate Study and Advisory Committee have recommended these modifications, which are important to increase consistency and transparency in the requirements for this track of our Classical Languages minor, to give students more choice, and to more accurately reflect the subject matter. The currently valid list of elective courses specifies two courses (GRK 491 and GRK 493) which are in Ancient Greek, not Modern Greek; this makes little pedagogical sense. We are proposing a larger list of electives which accurately reflect the subject matter of Modern Greek language, literature, and culture and which include existing courses which should previously been included in the list of electives (GRKM 199, GRKM 453, GRKM 454, CLCV 120). Furthermore, in order to give students the ability to deepen their experience of Modern Greek language, literature, and culture, and to carry out independent study and research under faculty guidance, we have initiated the process of creating two new courses (GRKM 492, Senior Thesis; GRKM 493, Independent Reading) which are parallel to existing courses in Ancient Greek (GRK), Latin (LAT), and Classical Civilization (CLCV).

3) In addition, please provide an answer as to how your undergraduate degree (120 hours of coursework) will satisfy this requirement:

INSTRUCTIONAL RESOURCES
1) Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change? No

2) Does the program include any required or recommended subjects that are offered by other departments? No

PROGRAM REGULATION & ASSESSMENT

1) Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning.

The learning objectives for the Modern Greek track within the Classical Languages minor are these:

1. Acquire and retain a detailed knowledge of Modern Greek grammar, syntax, vocabulary, and modes of expression so as to be able to read texts with comprehension
2. Situate knowledge of the language within the cultural contexts in which it is used in order to understand the crucial role of language in social dynamics and cross-cultural communication.
3. Acquire facility with contemporary methods of literary and historical analysis sufficient to carry out original, self-directed research into Modern Greek literature and culture.

These specific objectives embody the five goal areas established as the World-Readiness Standards for Learning Languages by the American Council on the Teaching of Foreign Languages (https://www.actfl.org). The department’s plan for assessing and improving student learning in the Modern Greek track of the Classical Languages minor will be closely aligned with the assessment plan for our programs in Ancient Greek and Classical Civilization submitted in October 2018 and favorably reviewed in February 2021.

2) Is the career/profession for graduates of this program regulated by the State of Illinois? No

PROGRAM FEATURES

1) Will specialized accreditation be sought for this program? No
2) If a proposal for a concentration- will you admit to the concentration directly? Yes / No
   is a concentration required for graduation? Yes / No
3) If a proposal for a Minor-
   o Is this minor: A comprehensive study in a single discipline

Other than certification via the students’ degree audits, is there any additional planned mechanism to award/honor successful completion of the minor? No
4) What is the typical time to completion of this program? (majors and grad programs only)
   
   Note: grad certificates require at least 10 weeks. Other examples: BALAS = 4 years, MA = 2.5 years

5) What are the minimum Total Credit Hours required for this program? (majors and grad programs only)

6) For Grad Programs only: What is the required GPA?

DELIVERY METHOD

What is the program’s primary delivery method, choose from following?

- On campus – Students are required to be on campus, they may take some online courses

ADMISSION REQUIREMENTS (grad programs and undergraduate majors)

1) Desired admissions term:

   Is this revision a change to the admission status of the program? If yes explain.

2) Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students. (degrees, majors, concentrations ONLY)

3) Describe how critical academic functions such as admissions and student advising are managed.

ENROLLMENT (grad programs and undergraduate majors)

1) Describe how this revision will impact enrollment and degrees awarded.

2) Estimated Annual Number of Degrees Awarded

   Year 1:

   Year 5 (or when fully implemented):

3) What is the matriculation term for this program? Fall OR Spring/summer/other

ENROLLMENT (minors only)

Will the department limit enrollment to the minor Y/N? No

Describe how the department will monitor the admission to/enrollment in the minor.
   Students must submit the Declaration of a Minor form to the department’s Director of Undergraduate Studies.

Are there any prerequisites for the minor? No
Describe how this revision will impact enrollment and degrees awarded. Because the proposal gives students in this minor more courses to choose from, we expect it will gradually increase enrollment.

**BUDGET**

1) Please describe any budgetary implications for this revision- addressing applicable personnel, facilities, technology and supply costs. No budgetary implications

2) Will the revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

3) Please provide any additional budget information needed to effectively evaluate the proposal. N/A

**FINANCIAL RESOURCES**

1) How does the unit intend to financially support this proposal? There are no budgetary implications, as the courses can be taught by existing faculty.

2) Will the unit need to seek campus or other external resources? No

3) What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary) (degrees, majors, concentrations ONLY) If this program requires a tuition or differential change, initiate a discussion with the LAS curricula contact, LAS budget officer, and LAS Associate Dean.

4) Are you seeking a change in the tuition rate or differential for this program Y/N? No

**RESOURCE IMPLICATIONS**

1) Facilities- Will the program require new or additional facilities or significant improvements to already existing facilities? No

2) Technology- Will the program need additional technology beyond what is currently available for the unit? No

3) Non-Technical Resources- Will the program require additional supplies, services or equipment (non-technical)? No

**RESOURCES**

For each of these items, be sure to include in the response if the change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.
1) Faculty Resources: Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.
No impact

2) Library Resources: Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.
Current resources, collections and services are adequate for the proposed program

ACADEMIC CATALOG ENTRY
1) All academic catalog entries contain 2 tabs: Overview and Degree Requirements. All proposal revisions will include updates to the Degree Requirements tab- which notes the major requirements (courses, hours) for the proposed curricula. Please see the University of Illinois Academic Catalog- http://catalog.illinois.edu/ for your unit for an example of the entry. Below, provide the updated degree requirements, using the current entry as a model.
1.A) DEGREE REQUIREMENTS-

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. <i>Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.</i>

 KT Dean

Does this program have inter-departmental administration?

No

**Proposal Title**

- **Effective Catalog**: Fall 2022
- **Term**

Provide a brief, concise description (not justification) of your proposal.

Revise the Undergraduate Minor in Critical Film Production in the College of Media

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

**Program Justification**

Why are these changes necessary?

Updating elective course list. MACS 464 was renumbered to MACS 366 and as a result the course needs to be updated in the in elective list. It is the same course with a new number.

**Instructional Resources**

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

**Program Regulation and Assessment**

Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

Students will complete and be assigned letter grades on projects appropriate to the course subject matter.
Is the career/profession for graduates of this program regulated by the State of Illinois?
No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponoring unit do not count toward this total. The unit sponsoring the minor and that unit’s college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  CFPMinor_MACS 366.docx
Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Undergraduate Minor in Critical Film Production (21 hours)

The Minor in Critical Film Production provides undergraduate students with a rigorous introduction to core critical, formal, and technical aspects of filmmaking through the four required courses. The additional electives allow students to gain deeper theoretical, historical and/or methodological knowledge to enrich their filmmaking practice.

The Minor in Film Production requires a minimum of 21 hours distributed over six courses as follows. At least six hours of advanced (300 or 400) level courses are included. A course cannot be used to satisfy more than one requirement within the minor.

Note: A course cannot be used toward more than one requirement in the minor.

1. A course cannot be used toward more than one requirement in the minor.

Program Features

**Academic Level** Undergraduate

Is this minor?
- A Comprehensive study in a single discipline

Is This a Teacher Certification Program?
- No

Will specialized accreditation be sought for this program?
- No

Other than certification via the students’ degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?
- No
This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor? 
No

Describe how the department will monitor the admission to/enrollment in the minor.

Open enrollment via the campus form

Are there any prerequisites for the proposed minor? 
No

Describe how this revision will impact enrollment and degrees awarded.

No impact.

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

We do not foresee any major impact on faculty hiring in the near term; as noted, the courses are already being offered. Enrollments across MACS and the College of Media will likely increase as a result of the proposed Minor.

Financial Resources

How does the unit intend to financially support this proposal?

MACS will oversee the minor, administered by Associate Professor Julie Turnock, and will offer the required courses at least once every year. Course fees will support facilities external to the College of Media—primarily Media Commons in the Undergraduate Library—that are needed to implement students’ production work in the Minor (details in Library resources).

Will the unit need to seek campus or other external resources?

No
Resource Implications

Facilities
Will the program require new or additional facilities or significant improvements to already existing facilities?
   No

Technology
Will the program need additional technology beyond what is currently available for the unit?
   No

Non-Technical Resources
Will the program require additional supplies, services or equipment (non-technical)?
   No

Resources
For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/acknowledgement from faculty, students, and/or other impacted units as appropriate.

Attach File(s)

Library Resources
Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.
   There will be no impact since the course was already part of the minor with a different number.

Proposal Title

Effective Catalog Fall 2022
Term

Provide a brief, concise description (not justification) of your proposal.

Revise the Undergraduate Minor in Game Studies and Design in the School of Information Science

List here any related proposals/revisions and their keys. <i>Example: This BS proposal (key 567) is related to the Concentration A proposal (key 145) and the Concentration B proposal (key 203).</i>

Program Justification

Why are these changes necessary?

We are updating the course number for one of the core courses. IS 199 SHG now has a permanent number, IS 142. Core course (IS 142) now has an updated permanent number and will no longer be taught as an IS 199 special topics section.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Program Regulation and Assessment
Briefly describe the plan to assess and improve student learning, including the program’s learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student’s achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

The Game Studies & Design Minor has three main learning objectives. After completing requirements for the degree, students should be able to:

• think critically about the history, cultural meaning, social impact, ethical issues, and increasingly significant role of games, gaming, and interactive media in a diverse society.
• understand the basic principles of game design as distinct from other design traditions
• apply the logical thinking skills (computational, algorithmic, or narrative-based) sufficient to create a design document and to prototype a game, or game-like app or simulation.

These student learning objectives correspond with three assessment questions that will guide a yearly collection of data that will be used for finding answers to the following three questions:

• Can our students demonstrate a critical understanding of the history, culture, social impact and ethical issues surrounding games and gaming?
• Do our majors understand the basic principles of game design?
• Have our minors successfully developed the logical thinking skills necessary to design and prototype a game in any genre of their choosing (i.e. video games require different skills from interactive text games, from board games).

The Game Studies Program Coordinator will collect data that reflects on the success of the minor as a whole, and the fulfillment of our student learning objectives. Each core course, as well as the elective courses developed for the minor will have well-articulated individual learning outcomes, which will describe the concepts and skills to be gained in relationship to one or more of the student learning objectives. At the programmatic level, the Program Coordinator will track the number of students enrolled in the minor, students’ demographic information, the distribution of students across colleges and major fields of study, courses taken, as well as post-graduate employment information, which will be used to update advising materials provided to students in the program. At the course level, various measures of student performance, and attainment of learning objectives will be used, including a self-assessment form filled out by students upon declaration of the minor, and another upon completion of the degree requirements, regarding their experience with and mastery of concepts and skills. Grades, homework assignments and class projects as well as exhibitions and presentations of student work will take place on a regular basis and will provide an additional source of data.

Evaluation of the program will take place in a two year rotation between (year one) macro-level analysis of curriculum, and (year two) a more focused scrutiny of course content/syllabi. In both years, an agile “Assessment and Action,” process will occur during which assessment data will be analyzed and used to make programmatic or
course changes as quickly as possible, to improve student learning in relationship to our stated outcomes. An Assessment and Action report will be prepared each Spring by the Program Coordinator, with the support of the Curriculum committee and will be shared with the Steering committee and the Director of Informatics.

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs  

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chose-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text - Overview Tab

Text for Overview tab on the Catalog Page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Game Studies & Design Minor is intended to foster critical skills in academic game studies, and technical skills in game design. The minor will serve undergraduates who are interested in the study and design of games, gaming, game design and the digital, extended and virtual reality (XR/VR) and artificial intelligence (AI) technologies involved with the crafting of interactive systems and interfaces relevant to the game, film, education, and media industries, as well as a range of other emerging professions. Through this minor, students will learn to think critically about the history, cultural meaning, social impact, ethics, and increasingly significant role of games, gaming, and interactive media in a diverse society; they will develop the logical, algorithmic, narrative, and design capacities needed to make games, interactive narratives, and simulations; and they will become prepared for graduate work, if desired, on a path to pursuing a career in the game industry or in academic game studies research.

Describe the use of this delivery method:
Large enrollment courses will be structured as online lectures and in-person discussion sections. Some courses may be available online only, some in-person only, and some may have both online and in-person sections.

Enrollment
Will the department limit enrollment to the minor?
No
Describe how the department will monitor the admission to/enrollment in the minor.
A Game Studies Coordinator/Advisor will promote the minor, advise students, and handle all aspects of enrollment.
Are there any prerequisites for the proposed minor?
No
Describe how this revision will impact enrollment and degrees awarded.
no impact

Budget
Are there budgetary implications for this revision?
No
Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
Yes
Please explain/describe: A program coordinator/advisor, a part-time advisor (as needed), and at least one instructional staff will need to be hired.
Additional Budget Information
All these positions will be funded with IU revenue.

Financial Resources
How does the unit intend to financially support this proposal?

The Game Studies & Design Minor program will be a new degree program in Informatics which is hosted by the School of Information Sciences; accordingly, it will receive the same general support that the existing Informatics degree programs receive. The salaries for the Program Coordinator, administrative assistant, and specialized teaching faculty member would be supported in part by IU cost recovery from three high enrollment undergraduate courses that will be controlled by Informatics. Other core and elective courses will be staffed and funded by tenure track, specialized teaching and adjunct faculty in their home departments, which will receive the IUs. Because so many courses that support the proposed minor are taught by the faculty in the units where the courses originate, and because these courses, by design, serve their disciplinary majors, as well as Game Studies minors, the costs associated with future course development and teaching will be likewise distributed. Please see attached file for further information and charts.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No
