Program Justification

Provide a brief description of what changes are being made to the program.

We are adding three courses and removing six courses for students to choose from for the Diversity and Equity graduate concentration.
Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/)

Yes

Why are these changes necessary?

In fall 2020, we updated all courses to the cross-listed EPOL primary rubric and this needs to be reflected in the course catalog. The updated courses relate to the DE program and this change allows our students more course options to prepare them for their career goals and outcomes. The new requirement for EPOL 403 is based on the departmental focus on social foundations and historical analysis that are critical to understanding diversity and equity.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program’s student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Students will acquire deep knowledge of structural inequity and how diversity and equity have been and are conceptualized and operationalized in U.S. educational systems, from the Colonial era to the present.

2. Students will be able to develop transformative approaches to address issues related to diversity and equity in P-16 learning environments and in the workplace, grounded in the intersections of disability, race, gender, sexual orientation, social class, and poverty.

3. Students will be able to demonstrate oral and written communication skills relating to diversity and equity in academic and professional arenas.

Describe how, when, and where these learning outcomes will be assessed.
Describe here:

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described below.

Administration of Learning Outcomes Assessment

Department: Ensure the learning outcomes at department level align with campus/college policies, operational resources, strategic trajectory, and faculty expertise. Once a month during department leadership meeting
- Student input
- Faculty input
- College Academic Program Committee
- Campus policies

Program: Ensure the learning outcomes at program level align with departmental policies and operational capacities Once a month during department GPC meeting (AY)
- Student input
- Faculty input
- Departmental Graduate Program Committee (GPC)

Identify faculty expectations for students’ achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Guided by our Learning Outcomes, in what areas and to what extent are the students learning what they should learn? From Formal Learning: Students’ GPAs, quality of course deliverables, publications in peer-reviewed scholarly and trade publications, awards and scholarships received by students, course evaluations, and feedback to the faculty and department; students’ pass-rates on Illinois State Board of Education exams for administrative endorsement
From Non-Formal and Informal Learning: Students’ initial employment placement upon graduation, students’ mid-term career paths, students’ participation and contribution to disciplinary scholarly and professional organizations by holding offices or providing services.

In what areas and to what extent are doctoral students conducting high quality scholarly research?
- Number of students’ publications and presentations in disciplinary areas of research
- Potential impact of students’ publications and presentations in disciplinary areas of research

In what areas and to what extend are students collaborating with multidisciplinary areas of concentrations?
- Students’ professional and academic affiliations with disciplinary areas of scholarly research or advanced practices
- Students’ self-identification with EPOL concentrations
- Number of students with coursework from multiple concentrations

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

**Diversity & Equity in Education (DE)** is a social-justice oriented program that aims at providing educators with transformative approaches to issues related to diversity and equity in P-16 learning environments. Courses will help teachers, administrators, school staff, and other educators to understand how diversity and equity relates to learning theories, leadership, and pedagogy. Our interdisciplinary approach to diversity and equity will cover the intersections of disability, race, gender, sexual orientation, social class, and poverty and draws on interdisciplinary research in education.
