## Proposal Title

---

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Eliminate the Joint Program in the Bachelor of Science in Community Health and the Master of Public Health in Public Health in the College of Applied Health Sciences and the Graduate College

Does this proposal have any related proposals that will also be revised at this time and the programs depend on each other? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently and together as needed. Format your response like the following "This BS proposal (key 567) is related to the Concentration A proposal (key 145)"

## Program Justification

---

Provide a brief description, using a numbered item list, of the proposed changes to the program.

1. Eliminate the Joint Program: Community Health, Bachelor of Science & Public Health, Master of Public Health

Provide the reasoning for why each change was necessary, using a corresponding numbered item list as it relates to the brief description numbered list above.

1. This elimination is part of a larger initiative to revise the curriculum in Community/Public Health. We are proposing to eliminate our programs in Community Health and eventually replace them with programs in Public Health.

Currently, the Department of Health and Kinesiology offers a B.S. degree in Community Health. While this degree fully prepares students for a successful career in public health, the degree title is not clearly recognized by prospective students and their parents.

Strategic planning and curriculum review exercises in the department conducted from 2020-2022 provide overwhelming support for the establishment of a Public Health major and subsequent deactivation of the Community Health major, based on faculty discussions and survey results from current students and alumni. Additionally, based on conversations with members from the Provost's and Registrar's offices, it was determined that it was better to deactivate our current programs in Community Health and propose new programs in Public Health. There are substantial changes between the two programs, some of which include a new degree title, a new rubric, a new CIP code, revised major requirements, and revised concentrations and concentration requirements.

Because we are deactivating our Community Health undergraduate programs and replacing them with Public Health undergraduate programs, we also need to deactivate the Joint Program: Community Health, Bachelor of Science & Public Health, Master of Public Health. At this time, we have already proposed new undergraduate programs in Public Health to replace our undergraduate Community Health programs. Once the new Public Health programs are approved, we will propose a new joint program between Public Health, Bachelor of Science & Public Health, Master of Public Health. We anticipate submitting this proposal before the end of the 2025-2026 academic year.

## Instructional Resources

---

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program? If Yes is selected, indicate the appropriate courses and attach the letter of support/acknowledgement.

Yes

Courses outside of the sponsoring department/interdisciplinary departments:

CMN 111 - Oral & Written Comm I

CMN 112 - Oral & Written Comm II

Please attach any [Letter of Acknowledgement\\_CMN.pdf](#) letters of support/acknowledgement for any Instructional Resources. Consider faculty, students, and/or other impacted units as appropriate.

## Program Features

---

Academic Level      Undergraduate  
                                 Graduate

What is the longest/maximum time to completion of this program?

5 years

What are the minimum Total Credit Hours required for this program?

164

What is the                3.0  
required GPA?

Is this program part of an ISBE approved licensure program?

No

Will specialized accreditation be sought for this program?

No

Does this program prepare graduates for entry into a career or profession that is regulated by the State of Illinois?

No

## Program of Study

---

### Catalog Page Text - Overview Tab

Catalog Page Overview Text

Statement for  
Programs of Study  
Catalog

Only students who have completed their junior year but have not yet completed their senior year are eligible to apply. The curriculum, degree requirements, and faculty for the 5-year BS-MPH program (MPH portion) are the same as the regular MPH program.

The BS-MPH program is accelerated. Students take a heavier course load during the fifth year, called the MPH year. The MPH year consists of one Fall semester, one Spring semester, and one Summer semester. For students in the Epidemiology concentration, the MPH portion of the degree consists of one Fall semester, one Spring semester, one Summer semester, and a second Fall semester, with students graduating in December.

## Program Relationships

---

Identify the existing  
programs to be  
joined:

Corresponding Program(s)
Community Health, BS
Public Health, MPH (on campus & online)

## Program Regulation and Assessment

---

## Plan to Assess and Improve Student Learning

---

*Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.*

### Student Learning Outcomes

There is no required licensure or certification in this field, however the MPH Program is nationally accredited by CEPH, the Council for Education on Public Health. Extensive reporting, assessment, evaluation, and tracking occurs as part of being a nationally accredited program. Very detailed curriculum competency alignment, tracking, and reporting happen throughout the year to ensure the program is meeting the 30+ individual competencies CEPH requires. In addition, an active External Advisory Committee and student governance advisory committee are both required, and are active entities supporting the MPH program.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

## Delivery Method

---

This program is  
available:

On Campus - Students are required to be on campus, they may take some online courses.

## Admission Requirements

---

Desired Effective

Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

## Enrollment

---

List the prerequisites including course titles and number of credit hours for each prerequisite course, and whether or not these prerequisites count in the total hours required for the minor.

### Phase Down/Elimination Enrollment

---

Does this program  
currently have  
enrollment? Yes

If so, what is the  
anticipated term of  
completion? Spring 2027

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

Over the life of this program, there have been 50 students enrolled in the joint program. At this time, we have three students enrolled in the Joint Program: Community Health, Bachelor of Science & Public Health, Master of Public Health, all of whom will graduate in the Spring of 2026. We have also admitted three additional students who will graduate in the Spring of 2027.

This elimination will have minimal impact on enrollment and/or degrees awarded. Students who are currently enrolled in and/or have been admitted to the program will be able to complete their current curricular program in Community Health and the Public Health, Master of Public Health, as all required courses will continue to be offered. Additionally, we plan to offer a new joint program in Public Health and Public Health, Master of Public Health in the near future.

Number of Students in Program (estimate)

Year One Estimate

5th Year Estimate (or when fully implemented)

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

## Budget

---

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

## Financial Resources

---

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

## Faculty Resources

---

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

The elimination of this program will have no impact on faculty resources. As indicated, we are replacing an existing program, Community Health, with a new program, Public Health. In addition, we will continue to offer the Public Health, Master of Public Health. All of the courses included in the proposed Public Health major and the Public Health, Master of Public Health are already being taught, so there shouldn't be any changes to class size, teaching loads, and/or student-faculty ratios.

## Library Resources

---

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

The proposal was shared with the Library's Applied Health Sciences subject specialist who indicated that the current proposal has no impact on library resources and services, as the terminated program will eventually be replaced by another similar program, for which the Library already acquires material, including online and print books and journals, as well as relevant databases. If the new program expands beyond the anticipated 5 year growth, the need for Library resources should be revisited with Library personnel.
