

**UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN SENATE  
COMMITTEE ON EDUCATIONAL POLICY  
(Final; Information)**

EP.26.118 Updated Levels of Governance (LOG) Document

The Levels of Governance (LOG) table summarizes approval paths for creation or modification of degree programs, curricula, and academic, research, or administrative units of the university. It is periodically reported to the Senate and campus community as a guide to current practice.

The LOG attempts to capture current practice for program and curricular changes, it is not a policy document. The policies regarding review are established by each body represented within the document. Information regarding the jurisdiction of each body may be found in Bylaws and other policy documentation. Changes in policies governed by external entities may necessitate a change in the approval path that isn't reflected in this document.
