Program Justification

Provide a brief description, using a numbered item list, of the proposed changes to the program.

Provide a list of numbered items of what changed and why each change was necessary.

1. UP 510 has been revised from 4 to 6 hours for FA 27, which consequentially adds 2 hours to the MUP course requirements.
2. Recommended concentration/electives reduced from 32 to 30 hours to balance the 2 hour addition of UP 510 credit hour change.
3. UP 591 will now be enrolled in for 0 hours each fall and spring term for both thesis and non-thesis students, whereas previously master's capstone project students enrolled in it for 4 hours in the fall. After a three-year trial of a new process, this revision returns to the operations of the longstanding prior approach with having students enroll in UP 591 for 0 hours for two semesters. UP faculty found that managing the thesis and non-thesis students in the capstone seminar and master's project/thesis research courses with identical credit hour approaches in the same semesters was more seamless and sensible for both faculty and students.
4. Due to the change of UP 591, now master's capstone project students will complete 8 hours of UP 598 which is equivalent to the 8 hours of UP 599 the thesis students complete.

No changes to total degree hours.

The learning outcomes have been updated since the last CIM-P update (Sept 2023) and are posted below to match the academic catalog).
